

WALLACE F. BENNETT, United States senator from Utah, speaks out loud on the country's economic condition along the lines that this humble publisher has been thinking for a long time, just as millions of others are thinking...

"The sad fact is that inflation is no economic fairy godmother. There is no magic in money to produce something for nothing, and when government creates money faster than its citizens create value it does not create wealth; it only creates inflation, which is the illusion of wealth. While inflation may seem at first to provide some people something for nothing, it is only transferring values from one group to another, and if continued, eventually robs everyone—even the 'smart' boys.

"When the American people can courageously face up to the fact that there is no such thing as something for nothing; there is no real security without risk; that money cannot be manipulated to provide wealth; that there is no substitute for human endeavor and individual wisdom and responsibility; then, and only then, can we bring America back to economic reality, which in turn will put our feet on the path to sound growth and true prosperity.

CUTE LITTLE LINES are some of our favorite reading. We pass along some we have encountered lately...

In choosing a life career for yourself, make it a tough one then you won't have so much competition.

It is not enough, as the fellow said, for a gardener to love flowers. He must also hate weeds.

Be it ever so homely, there's no face like your own.

His wife was even tempered—always mad!

Here's to the whole world for fear some fool may be offended.

One of the best preventatives of juvenile delinquency is a mother's club—in the of birchwood.

It's not the size of the dog in the fight, but the size of the fight in the dog.

Those who do for others also can do for themselves.

Juvenile delinquency was unheard of back in the days when studies were taught "to the tune of the hickory stick."

In the periods of prosperity most people make more money than they earn and spend more than they make.

MRS. CHARLES McDOWELL, the former Ina Rhelle Kelly of the Hamlin community, writes a newsy letter to The Herald from Canyon, where the family is now living. We quote from the letter:

"Noticed on my last copy of The Herald a sticker that advised our subscription had expired. Of course, we want to renew. We don't know what we would do without the weekly visits of The Herald, reporting on the goings-on of our old home town.

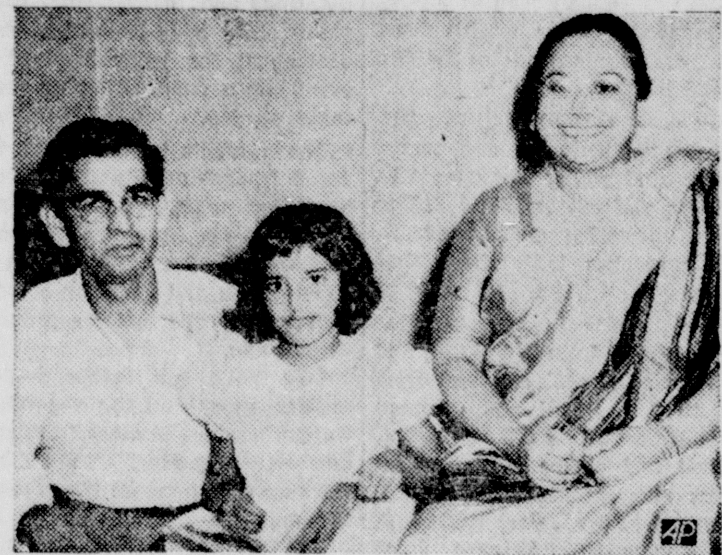

Charles is now a junior in West Texas State College and does so hope to finish soon. Ricky will start to school next fall, and is looking forward to that. Kerry will be four in June and thinks he is as big a Rick. Khelly Renee, our little six-month-old daughter, is growing like a weed. So even though we do miss home, we are all doing fine, and feel now that Canyon is our second home.

MRS. ART NEWCOMB was among a group of friends at a Sunday dinner recently when the subject of old fashioned cooking was the topic of conversation. Various friends were extolling the merits and demerits of cracklin' cornbread, hush puppies, home-made fresh lightbread hoe-cakes, and the like.

"I remember years ago when we were on a ranch near Albany that the cow-pokes were especially fond of my sour-dough biscuits," Mrs. Newcomb recalled. "But I nearly got turned against them because of the odor coming from the dough while they were being made. Of course, those cow-pokes didn't have to smell the bread before they ate it!"

PROFESSOR Ernest Brennecke of Columbia University is credited with inventing the following sentence that can be made to have eight different meanings by placing the word "a" in all possible positions...

the eye yesterday."

PAKISTAN FAMILY ATTENDS SCHOOL—Dr. Mohammed Haque of East Pakistan, shown here with his daughter, Fahmida, and wife, Sophia, both of whom are students in A. & M. Consolidated School while he does post-doctoral research at Texas A. & M. College at College Station.

Sale of Bookplates To Add to Library

Project to supply many new needed books current books and children's books for the Hamlin Memorial Library is expected to be realized in a campaign being conducted next week under direction of the Woman's Forum, sponsor of the local library. Mrs. Tate May is directing the campaign. Plan of the drive for funds is that donations made by public spirited citizens will be used to buy new books that are selected by a committee in order that a balanced variety of kinds and types of books can be provided for the library. For a donation of say \$6 by a donor two \$3 books will be purchased. A book-plate will be inserted in the books bearing the name of the donor.

Lester Baize Elected President of County Singing Convention

Scores of Hamlin area singers and song lovers were among the more than 500 people of West Texas who Sunday attended the annual sessions of the Jones County singing convention at Anson. The all-day affair, that began at 10:00 a. m. and lasted until about 5:30 p. m., attracted several famous musical groups, including the Stamps Quartet of Dallas.

During business sessions in the afternoon Lester Baize of Stamford was elected president of the convention at the sixty-seventh annual meeting of the group. Fred Bennett of Stamford was named vice president, and Harry Larry Holmes of Anson was chosen secretary.

Outgoing officers are Bennett, president; B. B. McKinney of Stamford, vice president; and Rue Bennett of Anson secretary.

Celotex Employees at Hamlin Given Award for Long Time Safety Record

Employees at the Hamlin plant of the Celotex Corporation have won the 1958 safety award given by the Celotex Corporation, with headquarters in Chicago, Illinois, in conjunction with their safety program, it has been announced by officials of the concern.

The big Hamlin industry had a zero loss time injury frequency rate for 1958 based on more than 436,000 man hours.

The employees have recently established an all-time safety record of 714 days without a loss of time due to an injury. This period represents over 800,000 man hours, and is the longest such stretch during the more than 14 years of operation under the Celotex ownership.

"This is an accomplishment of which not only the workers but the management are justly proud," declares Works Manager D. W. Cowan.

All of the plants of the Celotex Corporation have set an all-time low loss of time frequency rate of 1.85 per cent for 1958. Celotex is extremely proud of this accomplishment, as this compares with the gypsum industry loss of time injury frequency rate of 4.13 per cent for 1958 as reported by the gypsum association.

Winning of the safety award and the long time safety record were commemorated by Ted Armstrong, operations manager of the Celotex Gypsum Industry, presenting the 1958 safety plaque to D. W. Cowan and the plant safety committee at a luncheon at Hickman's restaurant in Aspermont.

The safety committee declares that a continuing program of safety practices is maintained at the plant through safety features...

as well as educational programs promoting caution and care. Many of the safety measures have been adopted from suggestions made by the workers themselves.

The safety committee pledges that by winning this 1958 safety award they will not relax their efforts in accident prevention and know that each and every employee of Celotex will do his share to become more safety conscious as they are the basis of all good safety programs and the winning of safety awards.

DeLeon Minister Leads McCaulley Baptist Revival

Spring revival of the McCaulley Baptist Church has been set to begin Sunday, April 12, and will continue through Sunday, April 19. These dates have been set by the church in cooperation with the local association of churches, the Fisher County Baptist Association, the district, state and south-wide in line with the simultaneous revival crusade being sponsored by the Southern Baptist Convention, church leaders declare.

Rev. Huron A. Polnac Jr. will be evangelist for the series of services. Rev. Polnac is pastor of the North Side Baptist Church of De Leon, and a student of Southwestern Baptist Theological Seminary of Fort Worth. His parents are Rev. and Mrs. Huron A. Polnac of Rotan. The church feels that it is fortunate in having this capable young minister to direct its campaign during these days of revival services, declares Rev. Gene Y. Brock, pastor.

Mr. and Mrs. G. W. Joplin of the McCaulley community will direct the music program during the services. Mr. and Mrs. Joplin serve the local church as song leader and pianist respectively. They have directed the music program in a number of revivals in the local church and in various other churches in and around Rotan.

Services for the revival have been scheduled for the evening only, except for the regular Sunday morning services. Prayer services will be held at 7:30, and the evening song and worship service will begin at 8:00 p. m.

Primitive Baptists Set Week-End Services

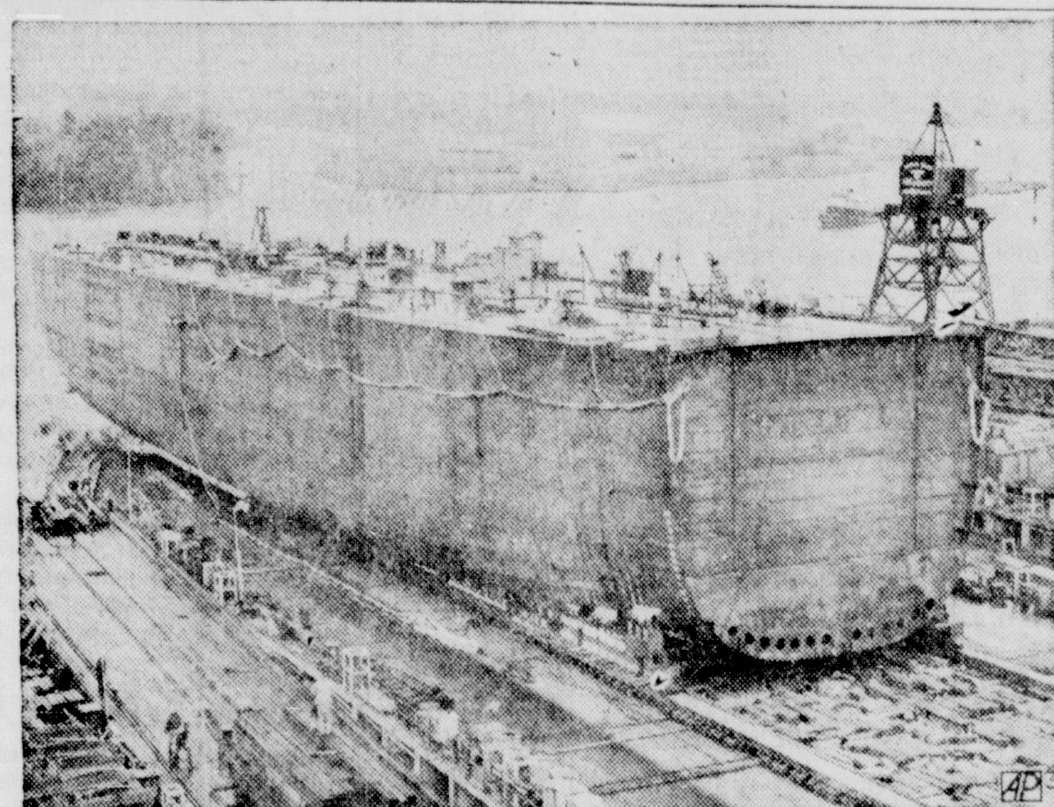

Week-end worship services are scheduled for Friday, Saturday and Sunday by the Primitive Baptist congregation at the Dove community church, five miles east of Hamlin, officials of the group announce.

Services are scheduled at 8:00 Friday evening, Saturday morning at 11:00, Saturday evening at 8:00 and Sunday morning at 11:00. Preaching in the series of services will be Elder Bob Moore of Dallas, Elder Harold Russell of LaPray and the pastor, Elder Fred Boen. The public is invited to all the services, it is announced.

Singing Set Sunday at Prairie View Church

Second Sunday singing will be staged Sunday afternoon at the Prairie View Baptist Church, nine miles southwest of Anson, according to Larry Holmes, one of the promoters.

Sunday will get underway at 2:30 o'clock, and the public is invited.

SHIP SIZE INCREASED—Some Texas fleet tanker operators now cut their ships in half—right across the middle—in a radical new plan called "jumbolizing." This stern section of a tanker sliding down the ways at Texas City has been cut loose from the bow to allow a larger mid-section to be added. After this is done the stern will be refitted to the bow section.

Second Ground-Soaking Rain Boosts Small Grain Prospects

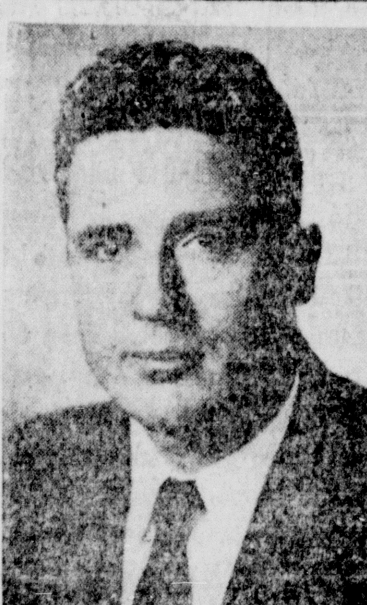

Visitation Day for Pre-School Group Slated on Tuesday

A pre-school visitation day for all beginners for another school year in the Hamlin Independent School District has been set for Tuesday, April 14, according to school officials.

All children who will be in the first grade next year are invited to visit the new Primary School from 8:30 to 1:00 o'clock along with their mothers.

The children will need to bring 30 cents to eat in the school cafeteria, announces Mrs. Fred C. Smith, primary school principal. They will also need to bring their birth certificates in order to be registered for net year. The visit gives the child a preview of what public school is like.

Following an invocation, musical numbers will be rendered by second grade pupils under the direction of Mrs. Willard Maberry, public school music teacher. Mrs. E. R. Perrin, president of the Parent-Teacher Association, will give a welcome to the attendants. A discussion of the school health program will be presented by Mrs. Bill Davis, school nurse. General remarks will follow by Superintendent of Schools C. F. Cook.

EVANGELIST for a 12-day series of revival services beginning next Wednesday at the North Central Avenue Baptist Church will be Rev. George Caffey (above), pastor of the East Side Baptist Church in McCamey. The services, to be held each day at 9:30 a. m. and 8:00 p. m. will continue through Sunday, April 26.

McCamey Preacher To Lead in Revival at North Central Church

Twelve-day series of revival services is scheduled to begin next Wednesday evening at the North Central Avenue Baptist Church, according to congregation leaders. The meeting will continue through Sunday, April 26.

Evangelist for the spring revival effort will be George Caffey, pastor of the East Side Baptist Church in McCamey. A young minister of outstanding abilities, his messages will edify and encourage, say members of the local congregation. The public is invited to attend the services.

Services will be conducted each day at 9:30 a. m. and 8:00 p. m. Prayer services for all age groups will be conducted each evening beginning at 7:30 o'clock.

Local talent will direct the music program for the meeting, it is announced.

Joe Bailey Stephens Is Fraternity Pledge

Joe Bailey Stephens, son of Mr. and Mrs. Joe B. Stephens of Hamlin, was among 18 new pledges for Sigma Nu, national social fraternity at Texas Technological College at Lubbock, according to a release from the school to The Herald.

Young Stephens is a sophomore at Tech.

Three-Quarters To Inch and Half Tabbed in Area

Winter small grain crop, which was given a much-needed drink 10 days ago after weeks of no moisture, were further benefitted by a slow falling ground soaking rain Tuesday afternoon and night.

The rainfall came in intermittently showers and drizzles that began late Tuesday. Rain was still drizzling as The Herald prepared to go to press Wednesday at noon, and the skies were still overcast, giving promise of still more moisture—which could be used handily.

The rainfall varied in amounts from around three-quarters of an inch to nearly an inch and a half in the Hamlin territory. Official government gauge maintained at the city pump station registered .71 of an inch up until 8:00 o'clock Wednesday morning. In North and West Hamlin .92 of an inch was registered by two residents on their individual gauges. Mrs. Etta Bond and others east of town said they got up to an inch and a half of rain. Rainfall north of town also was registered at more than an inch.

The official .71 of an inch reading at the pump station brought the year's total to 1.59 inches.

Menard Man to Lead in Mexican Revival

Spring revival meeting at the Mexican Baptist Church in Hamlin is scheduled to begin Sunday and continue through April 19, it is announced by the pastor, Rev. Victor Ortiz.

Scheduled to preached in the meeting is Silviana Lara, pastor of Menard. Services will be held at 8:00 o'clock each evening. Mrs. Vera Noble will play.

Georgia Moore to End Teaching Career

A long career of teaching will be terminated for Georgia Moore at the close of the current term of school, it was announced this week by Superintendent of Hamlin Schools C. F. Cook, when he announced the submission of her resignation to the school board.

Miss Moore, who has been an instructor in the fourth grade in Hamlin Elementary Schools for 31 years, previously had taught for 13 years elsewhere.

The pioneer teacher said she would retire after the current session.

Less Than Seven Per Cent of Vote Strength Polled

As predicted by several observers of school trustee and city elections last week, voting in the annual balloting in these local elections was almost a farce over the week-end. Less than 100 persons participated in either election.

Incumbents of office in both of the election were reelected as little opposition was furnished by the third man in each election.

In Saturday's election to name two men to the board of trustees of Hamlin Independent School District Richard Young Jr. and W. C. Eoff were reelected. Seventy-nine votes were cast in the day-long election conducted at the high school lobby under the direction of H. L. Williams, election judge. Young received 73 votes, Eoff got 71, and C. R. Lovell tallied 11.

Otto Sosebee running for county trustee-at-large, received all 79 votes.

In the city election Tuesday 73 votes were cast. A. Spencer and John V. Howard Jr. were reelected. Howard received 68 votes, Spencer got 63, and C. R. Lovell garnered 14. Clyde Huff received one vote on a write-in.

Voting strength in the school district is estimated at 1,675 which means that only about five per cent took part in the election.

The city of Hamlin has an estimated voting strength of some 1,200, which means that a little over six per cent of the voters went to the polls Tuesday.

Annual Drive for Cancer Crusade Slated Next Week

Annual drive for funds for the Jones County unit of the American Cancer Society is scheduled in the Hamlin community next week, from April 12 through 18, according to Holly Toler, community chairman.

No goal has been set for the various communities, but a quota of \$2,600 has been set for Jones County, according to Ed Sprowls of Anson, county chairman. Liberal response is expected to come from Hamlin community residents, Toler declares.

Plans for the Cancer Crusade were made at a meeting of representatives from the various cities and communities of the county at Stamford last week. Tom Adams of Stamford, county unit president, presided.

Adams has appointed a nominating committee, which will report at the June meeting of officials. Named to the committee were Mrs. E. M. Wilson of Hamlin, Jack Wilson of Anson and Mrs. Dave Walker of Stamford. Ethel Rowell of Stamford is current secretary-treasurer.

Toler had not named campaign workers for the Hamlin community at press time for The Herald.

Who's New This Week

Three new citizens have been reorded at the Hamlin Memorial Hospital since last week's report in The Herald. All three girls, they are:

A girl for Mr. and Mrs. Gerald Woodruff was born April 2. Her birth weight was eight pounds eight ounces. She will answer to Debra Elaine.

A girl arrived for Mr. and Mrs. C. L. Howard on April 2. After having her weight checked at eight pounds 14 ounces, she agreed to accept Lisa as a name.

A girl was born to Mr. and Mrs. Charles Newland on April 3. Balancing the scales at an even six pounds, the little miss was labeled Cheryl Denise.

HELP FOR LIBRARY IS WORTHY CIVIC PROJECT

Despite apparent unconcern on the part of some citizens of the community, the Harden Memorial Library at Hamlin is wielding an enlightening and thought-improvement influence on a growing number of citizens of the area. More and more people are coming to realize again the value of good books in the molding of thought and the improvement of the mind.

There is a definite place for a public library in any up-and-coming community. Its facilities provide a supplement to reading of daily newspapers, magazines and books purchased at random.

All books in the Harden Memorial Library are selected by a committee that endeavors to cull undesirable books from the repertoire for the reading public. Incidentally, this culling process will help the patrons of the public library to make their reading time count more profitably, inasmuch as their time would not be wasted by a trial-and-error method of finding desirable material.

Let us here pause again to express to the door of the library, Mrs. T. E. Harden, the appreciation of the community for the splendid gift of so worthy an asset to the area.

However, purpose of this editorial is to urge resident of the Hamlin community to support the current drive being sponsored by the Woman's Forum to add new books to the shelves of the library. The campaign proposes to add new books by the sale of book-plates that will bear the name of the donors. With the donation of say \$6 by a benefactor two \$3 books selected by a committee can be purchased for the library. The book-plate on the inside cover of the book will bear the name of the donor.

The project to add books to the local library is being conducted during National Library Week, which is pointing up the value of utilizing one's leisure time in cultural development through reading good books. The Herald foresees a liberal response by people of the community. See a member of the Woman's Forum—with a check.

Who Pays for It?

It takes all the U. S. income taxes paid per year by about 19 average private industry employees to pay the annual salary of one average civilian workers employed by the federal government.

The federal government employs 2,323,947 civilian workers. That number again is two million, three hundred and twenty-three thousand, nine hundred and forty-seven.

To keep these workers occupied the government owns 700 substantial corporations and 19,000 small businesses of all kinds, in addition to many service organizations. These corporations lose about \$10,000,000,000 a year, but instead of going out of business they simply chalk up a deficit and continue to operate on tax money.

Pay for the government's 2,300,000 civilian employees last year was \$11,000,000,000—equal to about one-third the total tax bill of all federal individual income taxpayers.

That's a lot of employees, and a lot of government, and an awful lot of taxes. Maybe we should tell our vote-hunting congressmen it is too much for all three.

Accurate Coin of Work

To say that modern mechanized equipment is essential to successful farming today is to say the obvious. Among other things, the machines have been the savior and backbone of the family farm, by making it possible to handle a greatly increased acreage with a diminishing amount of expensive human labor.

Very marked progress has been achieved in improving the equipment—in its productive efficiency, its safety, its durability. That, in large part, has been due to a policy whereby manufacturers experiment with new designs and ideas under typical farming conditions.

For instance, one of the leading makers owns and operates a 412-acre experimental farm in the Middle West. Its reason for being is the development of new and better machines. The work is carried on under field conditions from plowing to harvesting. The farm is managed like other agricultural operations in the region, growing crops for the testing of the machines and raising livestock. In recent years it has become a demonstration tract for soil conservation techniques.

Other makers test and develop their machines in comparable ways. In addition, suggestions from farmers are always welcome.

The end result is a better buy for the farmer—measured in the accurate coin of work accomplished for time and labor expended.

At all times and under all circumstances, the coin of work is good—Mary Baker Eddy.

In the Light of Fact

Communist propaganda argues that capitalism ruthlessly exploits workers. It's interesting to evaluate that in the light of irrefutable facts.

Last year, according to the American Economic Foundation, about \$328,400,000,000 was paid out to the American people, not counting social security and pensions.

Here's how all that money was divided: The lion's share, 75.1 per cent, went to employees of enterprises and organizations. The next biggest share, 12.3 per cent, was earned by people who worked for themselves—farmers, professional men and women, etc. Then 5.7 per cent was paid in interest; 3.7 per cent went to the stockholders whose savings are invested in corporations; and the remainder, 3.2 per cent, went to property owners in the form of rent.

Adding the figures up, we find that 87.4 per cent of all the money distributed amounted to payments for working, as against 12.6 per cent which amounted to payments for the use of savings. And these two categories are not separate entities. To a very great extent they consist of the same people. About 10,000,000 of us are stock owners. Some 21,000,000 have savings accounts, and some 100,000,000 have life insurance policies, and many millions have properties which they rent. These all share in payments for the use of savings.

If this is capitalist exploitation, the whole world needs massive doses of it.

Editorial of the Week

MILLIONS IN DOLES

Our payments of tax money to farmers become more scandalous every year. In 1957, the latest year for which figures are available, two large farm operators received together more than \$2,500,000 in price supports. An Arkansas rice grower received \$1,460,902, while a Mississippi cotton planter received \$1,157,502.

These and hundreds of other payments, ranging from \$100,000 to more than \$1,000,000, were read into the Congressional Record recently by Senator John J. Williams of Delaware. He pointed out that these enormous payments to big corporation farmers are encouraging absentee ownership to the detriment of small farmers.

How long will taxpayers stand for this unsound system that takes money from their pockets for the benefit of special groups? And how long will the consumers of farm products stand for this artificial hiking of prices that tends to put basic foods and fabrics beyond the reach of the poor?—Dallas Morning News.

RECALLING Other Years

★ Being news items taken from old files of Your Home - Town Newspaper, The Herald.

THIRTY YEARS AGO.

Checking over our old files of The Hamlin Herald, we find the following items of interest in the issue of April 5, 1929:

W. T. Moore, who lives near Anson, spent the last few days with his daughter, Mrs. Marvin Hudson.

Total of 1,045 barrels of oil is being produced each day in the Hamlin oil field west of town. It is estimated this week.

Hamlin will host next Monday and Tuesday to delegates to the annual Central West Texas Sunday School and B. Y. P. U. convention from Baptist Churches of Jones, Fisher, Stonewall, Kent and Haskell Counties.

A 50-year-old man was arrested Friday night by Night Watchman Reynolds and the city marshal as he emerged from the rear of McMahon Jewelry Company, previously found unlocked by the night watchman. He had on him considerable amount of jewelry taken from the store. He was lodged in the county jail at Anson to await action of the grand jury.

Bryant-Link Grocery advertises the following prices: Fresh strawberries, 10 cents pint; matches, large box three cents; sugar, 25-pound bag \$1.39; oranges, one cent each.

TWENTY YEARS AGO.

Among news briefs of interest in the Hamlin community 20 years ago were the following, reproduced from the issue of The Hamlin Herald dated April 7, 1939:

Mmes. W. C. Russell, Q. Martin, Willard Maberry, L. H. McBride, Gordon Bennett, Earl Smith and Bill Rountree and Misses Edwina Gilbert and Maxine Brundage were guests Friday afternoon of the Anson Music Club when they entertained members of music clubs from Hamlin, Stamford, Haskell and Anson.

Students of the Spanish department of Hamlin High School gave a program on Pan-Americanism Wednesday at the Rotary Club. Participating were R. A. Dean, Hazel Adkins, Maxine Brundage, Stanley Wilson, Eva Louise Fowler, Eloise Adkins, Rosemary Carlton, Helen McCoy, Donald Cherry and Mignon Waggoner.

J. E. Moody, R. H. McMurphy and Fred Britton attended the Texas Ginners Association convention at Dallas Tuesday.

TEN YEARS AGO.

From the files of The Hamlin Herald we reprint goings-on in the community 10 years ago, the briefs below being from the issue of April 1, 1949:

Attendance of 400 people of the community is expected at the annual Chamber of Commerce banquet this (Thursday) evening at the Elementary School. Harley Sadler, veteran showman, will be master of ceremonies.

Max Murrell of Hamlin, junior student at Southern Methodist University, has received appointment to West Point Military Academy.

Total precipitation for 1949 rose to 3.80 inches last Friday when Hamlin received .18 of an inch in a rain that skirted the edges of tornado storm area.

Flowing from the Ellenburger strata at 5,950-6,050 feet, the Texas & Pacific Coal & Oil Company's No. 1 Pardue & Toiler well, five miles northwest of Hamlin, produced approximately 20 barrels of oil an hour Wednesday night in tests.

FIVE YEARS AGO.

The following news briefs are reprinted from the issue of The Hamlin Herald dated April 2, 1954:

Practically all the foundation work on the \$500,000 gas plant of the Texas & Pacific Coal and Oil Company plant, seven miles northwest of Hamlin, has been completed, and heavy equipment for the processing plant is being placed.

Forecasts of a record vote in the city election next Tuesday that will name a mayor and three aldermen is being made this week. Numbers of Hamlin Scouts, Explorers and Scouts to slated to go to the Swenson Jog on the Brazos River northeast of Lueders this week on an annual camporee for the northern district of the Chisholm Trail Council.

Daily judging team of the Hamlin High School chapter of FFA won first place in area contest at Coleman over the week-end. The team was composed of David Johnson, Clifford Eoff and Douglas Ford.

Work of resodding the football field of Pied Piper stadium has been completed in Southwest Hamlin, according to officials of Hamlin High School.

Large Offering of Lambs Highlights Fort Worth Market First Part of Week

A large offering of lambs was on hand for the opening session of the week at Fort Worth Monday, and the trade found local national packers as well as shippers active, and prices were generally steady on slaughter kinds. Nearly two-thirds of the run was milk lambs of the new crop, with about one-third old crop lambs. Sheep were in very small demand. This was the word of Ted Gouldy, special market reporter for The Herald, in his weekly release, which continues:

Good and choice slaughter spring lambs cashed at \$20 to \$21.50, with one load of about 80-pound lambs from W. T. Howell of Caldwell that topped at \$22. Cull to medium springers sold from \$14 to \$19. Stocker and feeder spring lambs sold from \$16 to \$18.50.

Good and choice old crop shorn lambs cashed at \$17 to \$19, and cull to medium old crops sold from \$10 to \$16.50. Stocker and feeder old crop lambs cashed at \$15 to \$17. A few slaughter ewes sold from \$6.50 to \$8 and old bucks sold from \$7 to \$8.50.

Hogs were about steady with the close of last week, and sows were weaker. Choice hogs sold from \$16.50 to \$17 a few selected No. 1 and No. 2 hogs of 200 to 230 pounds at \$17.25 and \$17.50. Some heavies of 260 pounds and up sold from \$15 to \$16.50. Sows cashed at \$13 to \$14, a few \$14.50.

Fed steers, fed yearlings and heifers and fat calves opened slow but were generally fully steady as a clearance was effected. Cows, bulls and stocker and feeder classes of cattle and calves cleared readily at firm prices from the start.

Good and choice slaughter steers and yearlings cashed at \$26 to

\$29.50, some 1,019-pound steers from McClung Land & Cattle Company of Cleburne at \$20.50 and some club steers from the Motley County 4-H Club youths sold mainly at \$29, a few cut at \$27 to \$28. Some three or four loads of cattle from the Spur Experiment Station sold mostly at \$27.50 with a half load at \$28.50. Medium and lower grade steers and yearlings cashed in the \$18 to \$23 bracket.

Fat cows cleared at \$18 to \$21, with some heiferish and mixed heifers and young cows at \$22. Cannons and cutters drew \$12 to \$19. Bulls sold from \$18 to \$23.50, a few stocker bulls above that range.

Good and choice slaughter calves ranged from \$26 to \$31, and common and medium sorts drew \$23 to \$26. Cull and common kinds drew \$18 to \$23.

Good and choice stocker steer calves ranged from \$28 to \$35, and good heifer calves sold from \$31 downward. Stocker steer yearlings of lighter weights sold from \$32 downward, with fleshy feeder yearlings from \$29.50 downward. An unusual sale in this category was a lot of mixed steer and heifer yearlings sold to feeders at \$29.50 that scaled nearly 700 pounds and carried enough flesh to attract about equal bids from slaughter interests.

NOW UP TO HER.

Upon returning to her sixth grade class one day, a teacher found the children sitting quietly at their desks. Since this was unusual, she asked them for an explanation.

Rather hesitantly a girl said, "Well, you once told us that if you ever left the room and came back to find everyone sitting perfectly still, you would drop dead."

Eighth Graders in Classroom Study Gardening Project

Eighth graders of Hamlin Junior High School have been studying gardening and related problems in general science classes, taught by J. S. Ferguson Jr.

By testing seeds for weeds and sprouting ability, and by actual planting and caring for these plants, they have learned a great deal about the work involved in producing a good flower or vegetable garden.

The students have learned the art of transplanting and the problems that arise. They now have some beans, popcorn, carrots, pepper plants, corn, sweet peas, onion plants and bachelor buttons growing in cans and jar arounds their room.

"We have our teacher's permission to eat all the vegetables we can produce in class," declares one eighth grader, "so we are working very hard on the popcorn and onions."

The students feel that their unit on gardening is a practical one as well as being fun and interesting, and as a result several of the group are planning real gardens at home.

SOME COMBINATION.

As usual, the girls were talking about marriage.

"I'll have trouble finding the kind of man I want to marry," commented Denise. "He'll have to be smart enough to earn a lot of money but stupid enough to give it to me."

Local Correct Posture Entrants Will Confer

Plans are being made this week for conducting local eliminations in the correct posture contest among high school girls and others of the community, according to Dr. William A. Pattillo, Hamlin chiropractor. Girls interested in entering the local contest are invited to meet Monday afternoon at 12:45 o'clock in the high school auditorium to learn particulars about the event.

Local winner will go to the district contest where the winner will receive a \$25 prize. The district winner will go to the state contest where a \$500 scholarship will be the award.

The correct posture contests are conducted under sponsorship of the Texas Chiropractors Association.

THEY'RE ALL DEAD.

"Yes, sir," said the old man, "I'll be 90 tomorrow, and I haven't an enemy in the world."

"A beautiful thought," said the visitor.

"Yes, sir," went on the old man, "I've outlived them all."

Woman Operator of Sylvester Ranch Given Lions Soil Conservation Award

Presentation of a plaque to Alice Emma Cross of Sylvester for having been named outstanding conservationist of the past year for Upper Clear Fork Soil Conservation District was a highlight of the Tuesday noon luncheon of Hamlin Lions Club at the oil mill guest house.

The plaque, given annually by the Lions Club, in cooperation

with the soil conservation service of Texas, was presented by Acting President B. V. Newberry of the club to the woman, who operates an 820-acre ranch in the Sylvester community. Accompanying Miss Cross to the meeting were Mrs. J. M. Cox of Sylvester and C. C. Roach, supervisor of the Upper Clear Fork Soil Conservation District.

Miss Cross has carried out an extensive conservation program on her ranch unit, declared Roach. This program consists of brush control, range reseeding, pond construction, proper use, deferred grazing and range spreaders.

Fred B. Moore Jr., president of the Hamlin Board of Community Development, spoke on possibilities of growth in the Hamlin community. He pointed to past stable growth of industry, and bespoke continued expansion of the community through cooperation of people. "We can't just sit by and get growth," declared Moore. "We must cultivate the promising flowers of growth. Our possibilities are limited only by our vision and willingness to work for progress that will make a city of 10,000 to 20,000 people within a few years' time."

R. R. Tulley of Abilene presented the candidacy of L. R. (Lap) Lapham of Abilene for district governor of District 2E-1 of Lions International at the forthcoming district convention later this month at Mineral Wells.

Besides Miss Cross, Mrs. Cox and Roach, other guests at the Tuesday luncheon included L. W. Patterson and R. R. Tulley of Abilene.

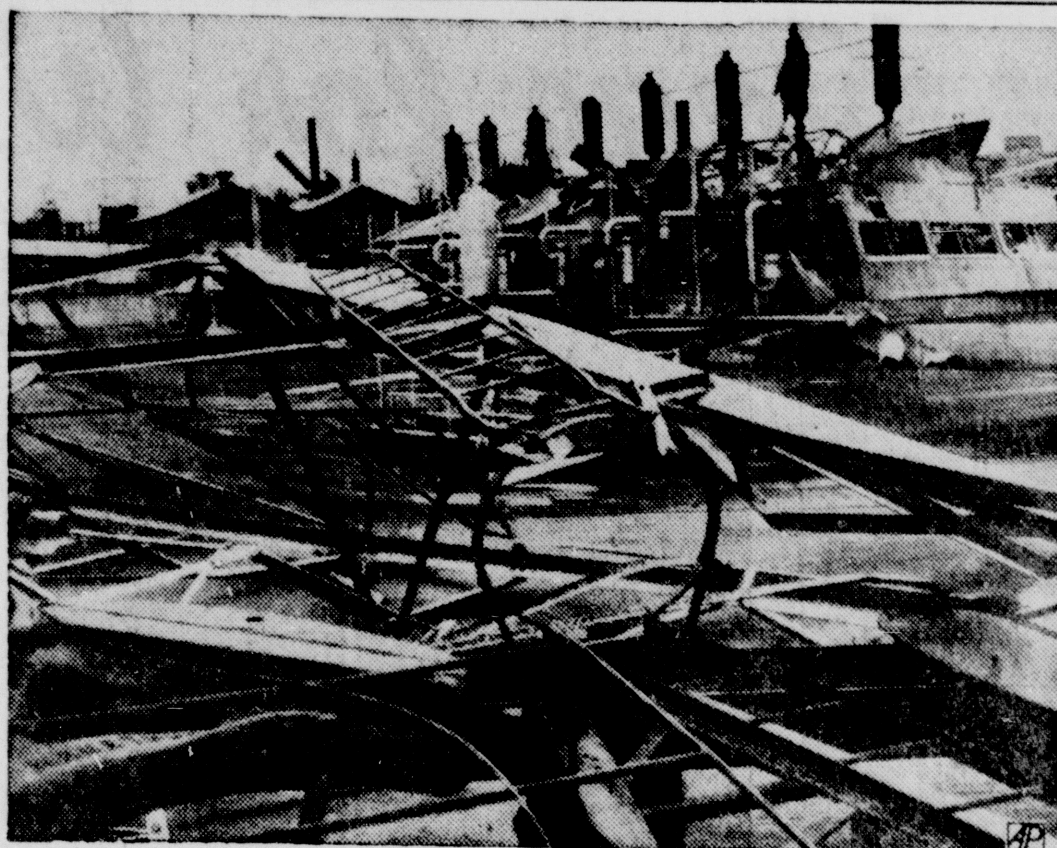

A slate of officers for the ensuing club year beginning July 1 for the Lions Club was submitted by a nominating committee. Election will be held next Tuesday.

Newberry reported that two Hamlin High School boys, involved several months ago in law violations, who were sentenced at Anson for their crimes, had been placed in boys' ranch homes at Medina and Amarillo through efforts of the Hamlin club.

OVERSIZE TIME.

A man walked into an antique shop one day and, seeing a grandfather clock to his liking, purchased same and proceeded to carry it in front of him a block down the street to his truck. Not being able to see where he was going, he bumped into a drunk on the sidewalk.

Slowly regaining his balance and footing, the drunk said, "Why in the devil don't you wear a wrist watch like everyone else?"

GAS PLANT DAMAGED BY TORNADO—The Texas Natural Gasoline Corporation plant near Gainesville was heavily damaged by one of several tornadoes that buffeted the state last week. In the foreground is a toppled oil derrick and the compressor house in the background was heavily damaged. At least seven persons were killed in the twisters.

Inflation Hurting Everybody, But Aid Sought by Congress, Declares Senator

The problem of inflation rates second only to the issue of national survival, declares U. S. Senator Lyndon B. Johnson, in his weekly news release to The Herald. His release continues: It arises in the work of this Congress at every turn, and is a factor in almost every decision we make.

Inflation has imposed a cruel burden on the people particularly those who depend for their livelihood on fixed incomes.

It has struck at the small businessman and the small town. Some have felt it more than others. But there are few persons who have avoided the impact of inflation on their daily living.

We are moving through a period of strange contrasts. We have—at the same time—inflation and recession. Some prices continue to rise. And at the same time, more than 4500,000 people cannot find jobs.

This week the Senate provided the tools to take apart and study this strange situation. It made available \$200,000 to finance this work by the joint economic committee. This group is now engaged in the most searching study of its type undertaken in 20 years. And I believe the results will offer fruitful returns to the American people.

Some have blamed inflation on

so-called deficit spending. But the history of our nation over the last 40 years casts grave doubt on this theory.

For instance, in the late 50s, we have had both federal surpluses and federal deficits—accompanied by rising prices.

I do not suggest there is no relationship between the federal budget and the price level. But I do believe we must understand that relationship better if we are to act intelligently.

The scope of the committee study embraces all current aspects of the economic policy of our government. It includes interest rate policies, money supply and the financing activities of the government.

When this able committee has completed its work it will then report its conclusions to the Congress. And that report, I earnestly hope, will serve as a springboard for timely, intelligent action by the Senate.

SOUP TO NUTS.

Two cannibals were sitting around chatting after a hearty meal.

"That was some meal," commented the first, licking his lips. "Yes, my wife makes a wonderful soup," replied the host, "but I'm sure going to miss her!"

B Plan Choice by Most Farmers to Up Cotton Acreage

Final summary of Choice A and Choice B exercised by cotton farmers under provisions of the 1959 cotton marketing quota program reveal that 68,559 farm operators in the nation have selected Choice B, M. S. Jones, county office manager of the Jones County Agricultural Stabilization and Conservation Committee, reported this week.

The increase in acreage permitted for those producers who chose Plan B amounts to 1,023,529 acres which increases the national cotton allotment from 16,310,000 to 17,333,529 acres. In the state of Texas 21,508 farm operators chose Plan B, increasing the acreage for the state by 28,121 acres, and in Jones County 142 cotton operators, or seven per cent, selected Choice B under which the county's cotton acreage may be increased by 3,496 acres. This will increase the county's cotton allotment from 102,593 to 106,089 acres.

Under the Choice B program the upland cotton allotment for 1959 is increased 40 per cent over the allotment available under the Choice A program.

Cotton producers, in compliance with the B program, will be eligible for price support at 65 per cent of parity, while that produced under the Choice A program will be supported at 80 per

Avery Hopper Back From Army Service

Sergeant Avery G. Hopper, son of Mr. and Mrs. E. B. Hopper of Hamlin, landed last week in the states after serving for three years in Germany. He will join his wife and son and will be stationed at Fort Belvoir, Virginia.

Sergeant Hopper has a brother, Bobby R. Hopper, who is stationed in Germany. The brothers have visited a number of times in Germany. Bobby will complete his two-year tour of duty in June.

cent of parity. The price support levels, basis middling seven-eighths staple, gross weight, at average location, is 30.40 cents per pound for Choice A cotton and 24.70 cents per pound for Choice B cotton.

TRUE BAROMETER.
Old Lady—"The weather here in Florida is so wonderful all year around, how do you tell summer from winter?"
Hotel Clerk—"In winter we get Cadillacs, Lincolns and stuffed shirts. In summer we get Chevrolets, Fords and stuffed shorts."

Rubber bands at The Herald.

150,000 FAMILIES HAVE ALREADY MADE THE MAGNIFICENT CHANGE TO

THE CLEAN WINGED STYLE OF BUICK '59!

Next time you look through your windshield at the unmistakably clean, sleek tail of a Buick '59... take a moment to envy its owner...

He owns THE Car... "hottest" thing on wheels today. He owns THE style that's farthest ahead both in public notice and in future trade-in worth.

He commands the most efficient automobile power plant in America today. (Buick's new Wildcat engines not only deliver an important increase in actual miles per gallon... but when you take car weight and performance into account, they get more out of each gallon of gas than any others.)

He stops with Buick's exclusive braking system. (Fin-cooled, front and rear, aluminum drums in front.)

When he wants to speed up or slow down, he feels the quick answers of the smoothest transmissions of all... (only Buick combines Twin Turbine* or Triple Turbine* transmission smoothness with Wildcat getaway).

But why not find out for yourself? This car's quietness of motion. Its comfort of roominess and ride. Its willingness to do exactly what you wish of it.

You'll live so much better in a Buick '59. Let your Quality Buick Dealer show you why... and how easily the man in the Buick could be... YOU!

Visit your Quality Buick Dealer soon. He's anxious to show you why your family belongs in the NEXT 150,000 to make the magnificent change to Buick '59!

*Optional at extra cost on some models.

TO OWNERS OF CARS IN "THE LEADING LOW-PRICED 5" ... You'll be surprised how easily you can own a Buick Le Sabre instead! Be sure to ask your Buick dealer about "THE MOST IMPORTANT \$200 IN THE AUTOMOBILE WORLD!"

Myra Siburt Is Elected President of HHS Chapter of Future Homemakers

At the last meeting of the Hamlin High School chapter of Future Homemakers of America, officers for next year were elected. Nominated were: Myra Siburt, president; Nina Jean, vice president; Mary Smith, secretary; treasurer; Monte Wade, reporter; Norene Hudspeeth, historian; Thelma McClung, parliamentarian; Suzanne Jenkins, sergeant-at-arms; Dora Palmer, song leader; and Linda Bingham, pianist.

The trip to the state FHA convention in Dallas was discussed. Those who will attend the meeting are Ginger Rabjohn, outgoing area president; Ann Richey, state officer; Myra Siburt and Nina Jean.

Program for the meeting was a style show presented by the first and second-year homemaking classes. The girls modeled the garments which they had made recently. Freshmen girls participating in the show were Charlene Berry, Linda Bingham, Nancy Carter, Lucille Decker, Pat Green, Linda Farmer, Carolyn Ray, Jackie Osbourn and Laverne Williams.

Sophomores who modeled were Lillie Sue Austin, Linda Cavitt, Beth Christian, Suzanne Jenkins, Lanita Mallory, Melinda Martin, Reta Maynard, Dora Palmer, DeNetta McCracken, Charlene Pendley, Sarah Snapp, Janice Ueckert, and Zoan Winegart.

Lee Maberry and Stamford Girl to Wed in June Ceremony

Mr. and Mrs. Maynard Olson of Stamford are announcing the engagement and forthcoming marriage of their daughter Myron Loyce, to Lee Gillis Maberry, son of Mr. and Mrs. L. B. Maberry of Hamlin.

The wedding will be performed at 8:00 p. m. on Saturday, June 6, in the Bethel Lutheran Church, east of Stamford, with Dr. Hugo B. Haterius, pastor, officiating.

The bride-elect is a 1958 graduate of Stamford High School and a student at Gail Business College in Abilene. Her fiancé is a 1954 graduate of Hamlin High School. He attended North Texas State College at Denton and is employed with the Santa Fe Railway.

Imagine Being Happy During CHANGE-OF-LIFE!

Thousands of women now go "smiling through" those trying years—without awful suffering from "hot flashes"! Countless women have found you no longer have to feel sick, "old" before your time. Today, many can enjoy change-of-life—without terrible suffering!

Pinkham's Tablets have been developed especially to relieve those functionally-caused "female miseries." Their unique formula includes blood building from With Pinkham's Tablets.

you can escape much of the "hot flashes," irritability. You're ready to start living again!

NO PAINFUL SHOTS!

8 out of 10 tested by doctors got thrilling relief—without costly shots! Why not you? Get Lydia E. Pinkham's Tablets at drug stores. See if you don't find new happiness during change-of-life!

IF YOU PREFER A LIQUID, druggists also have Lydia E. Pinkham's Vegetable Compound.

TELEPHONE TALK

Summer Baseball Program Is Fine

We at Southwestern Bell are gratified to see the splendid interest being maintained in the summer baseball program for boys through the Little League and Pony League in the Hamlin community.

The donation of money to help promote the program and the devotion of many adults to provide leadership and training for the boys of the community of a certainly will go a long way toward making better men and citizens of tomorrow of the boys of today.

Lessons in fair play, sportsmanship and general relationships with others will instill in the boys the principles so much needed today in this world bitterness and strife.

Spring-a-Ling! Kitchen Phone Time

I guess you might say that Spring and color just go together. The lawns are getting greener, trees and flowers are starting to bloom and soon there'll be color all around us.

Spring is also a time for housecleaning and remodeling—at least at our house where we always have a project or two on hand. Whether it's housecleaning or remodeling—or both—why not add an extra touch of color like a friend of mine did recently?

His wife was having a new counter-top installed in the kitchen, and called to tell him what a professional job the carpenter was doing.

Figuring that he wouldn't let the carpenter steal his thunder, my friend called the telephone company and ordered a white wall phone for the kitchen.

So Many Wonderful Colors

When he made the big announcement at dinner, my friend admitted he was worried about his choice of color. "They had so many colors," he explained, "I wasn't sure which to choose. They had red, green, beige..."

"But white goes best with the new counter-top," his wife interrupted, "just what I needed to perk up the kitchen even more."

The moral of this story is, if you want to be a hero, add that extra touch of color by ordering a kitchen telephone for your wife. A kitchen telephone in color will brighten up the room, help her get things done, and let her chat with friends between chores.

Be a hero. Call the telephone company today.

Call by number. It's twice as fast.

Big Crowd Attends Program Monday At P-TA Meeting at McCaulley School

Members of the McCaulley Public School Parent-Teacher Association met Monday evening at the homemaker cottage of the school plant for their regular meeting of the month. There were approximately 75 people present for the evening of business and program. Mrs. Advis Jeffrey, president of the local organization, presided.

Program was presented by students of the fifth and sixth grades under the direction of Mrs. Gene Y. Brock, sponsor of the group.

Faith Methodist Women Meet Today

Women's Society of Christian Service of the Faith Methodist Church will meet this (Thursday) afternoon at 2:45 o'clock. It is announced by officials of the organization.

The study will be on the sixth chapter Isaiah. Members and friends are invited to attend.

topic was "Remembering God Early." Juanita Douglas made a short talk entitled "What Is Homemaking?" All NHAers wore their blue and white uniforms to the service.

A program will be given by the girls in chapel Friday morning climaxing the celebration of NHA Week, announces Mrs. Ford.

"My Daddy says that the electricity that lights our house comes from the Electric Cooperative and that if it hadn't been for the Cooperative we might still be using a kerosene lamp."

That's right young lady. Twenty years ago your Dad and some of his neighbors got together and borrowed money to build their own lines. They are paying the money back with interest. During the drought the payments were sometimes hard to make but they never missed a one. When you're old enough to have your own farm, remember the electrical system wasn't given to you. You are paying your own way with interest. It's a wonderful story of rural people working together to make a better life with Rural Electrification.

North Central Baptist Training Union Meets In Harold Lee Home

Members of the Phillips Training Union of the North Central Avenue Baptist Church met Friday evening in the home of Mr. and Mrs. Harold Lee for their business and social meeting of the month.

Mrs. Robert Rhoton opened the meeting with prayer. Mrs. Eddie B. Hopper led the group in singing. Mrs. V. Madden, president, presided at the business session. Mrs. Bob Christian brought the devotional on "God's Love." Mrs. A. G. Anderson said the closing prayer.

Games were enjoyed by the group. Cake and ice cream were served to the following attendants: Mr. and Mrs. Sid Clay, Mr. and Mrs. Robert Rhoton, Mr. and Mrs. Henry Plemons, Mr. and Mrs. D. A. Mullings and David, Mrs. V. Madden, Mrs. Phillips, Mrs. L. H. Clark, Mrs. W. J. Stewart, Mrs. A. G. Anderson, Mrs. Bob Christian, Kathy and Connie, Mrs. Eddie B. Hopper and Jane, Jack Tolbert and the Harold Lee family.

Next meeting of the group will be in the home of Mr. and Mrs. A. G. Anderson on May 1.

Naomi Sunday School Class Meets Monday In Waymire Home

Members of the Naomi Sunday School Class of the First Baptist Church met in their monthly social and business gathering Monday morning in the home of Ola Waymire. Co-hostesses at the session were Billye Goodman and Vincie Walton, class teacher.

Following opening prayer by Lillian Greer, Violeta Neidecken gave the devotional on the Lord's prayer.

A short business session was conducted, with Lillian Greer, the vice president, presiding. Refreshments of coffee, cocoa, sandwiches and nuts were served to the following: Mmes. Lillian Greer, Violeta Neidecken, Billye Goodman, Mayme Deel, Vincie Walton, Lela Lain, Winowee Abbott, Pearl Ramby, and Macie Pemberton.

Winowee Abbott dismissed the gathering with prayer.

When you begin to smile at things that used to cause you to laugh, middle age is approaching.

Good Neighbor Club Hears Informative Insurance Program

Ten members of the Good Neighbor Home Demonstration Club heard an interesting and informative program on health insurance when the club met at the community center March 24.

Due to the illness in the family home economics leaders the program was brought by the president, Mrs. J. E. McCoy.

Mrs. McCoy brought out several points to look for when buying hospitalization insurance. This was followed by a discussion participated in by the group.

Next meeting date, April 14, the club will have a salad luncheon. The program for that date is on "Salads," so each member will invite one guest and the club will meet at 11:30 a. m. Lunch will consist of salads brought by the members.

At 1:00 o'clock a representative from the Merle Noorman studio at Abilene will be on hand to give demonstrations on the art of make-up, using her products. Everyone who is interested is cordially invited to attend this demonstration, and the cosmetics will be for sale, a percentage to go to the club.

Woman's Literary Club Has Art Program

Mrs. Dick Maberry was director for a program on "Abundant Living Through the Arts," when members of the Woman's Literary Club met Friday with Mrs. Richard Young Jr.

Mrs. Maberry presented Mrs. R. D. Moore, who gave the federation counselor's reports. Each club member displayed her own art treasure and gave background facts about it. Mrs. Bill Shira gave "Treasures from Poetry."

The club members voted on the theme for next year, "A Look at Today's World." The meeting was adjourned by the president, Mrs. A. B. Carlton.

Mrs. Ted Russell was a guest at the Friday meeting.

HEALTH IMPROVES.

A man reached his one hundredth birthday. A wise-cracking youth congratulated him and said, "Do you think you'll make another hundred?"

"Well," said the centenarian, "I am a lot stronger than I was 100 years ago."

New Officers for Woman's Forum for Next Year Installed in Tuesday Rites

Installation of officers for the Hamlin Woman's Forum for the ensuing year was held Tuesday afternoon in the rooms of the Harden Memorial Library.

Mrs. M. T. York, immediate past president of the forum, conducted the installation of the following 1959-60 officers: Mrs. R. D. Moore, president; Mrs. C. J. Rollis, first vice president; Mrs. E. D. Perrin, second vice president; Mrs. W. A. Cassle, recording secretary; Mrs. Sol Branscum, treasurer; Mrs. E. M. Wilson, reporter; and Mrs. M. T. York, parliamentarian.

Mrs. Moore announced standing committees for the year as follows:

Building—Mrs. M. T. York, Mrs. Ed Bailey, Mrs. Wilson Brannon and Mrs. R. L. McClung.

Community Service—Mrs. E. D. Perrin, Mrs. J. E. McCoy, Mrs. L. H. McBride and Mrs. Jack Vaughan.

Library—Mrs. Tata May, Mrs. Phil Smith and Mrs. Zelma Hulise. Hospitality—Mrs. Ned Moore, Mrs. John Ed Day, Mrs. Holly Toler and Mrs. C. Weldon Griggs.

Program—Mrs. C. J. Rollis, Mrs. John D. Ferguson, Mrs. George Poe and Mrs. Gerald Young.

Public Affairs—Mrs. E. M. Wilson, Mrs. Noel Weaver, Mrs. Kenneth Riddle and Mrs. F. E. Bayouth.

Nominating—Mrs. Clyde Grice, Mrs. Irby Weaver and Mrs. Wesley Nail.

Finance—Mrs. W. T. Johnson, Mrs. L. C. Bonds, Mrs. Sol Branscum and Mrs. Willard Jones.

Membership—Mrs. W. A. Cassle, Mrs. Johnnie Agnew and Mrs. Sam Hodges.

Next regular meeting of the forum will be June 30, which is the next fifth Tuesday occurring in the year.

Gold Star Award Stoves Providing Wanted Features

There's a new star for the home-maker in the gas range firmament.

It is the striking Gold Star Award which goes to gas ranges that meet at least 28 standards of cooking perfection plus two of five optional features of convenience and operating efficiency. Then and only then is a range permitted to "wear" the attractive and significant Gold Star Award seal.

Any gas range manufacturer has the opportunity of qualifying under the Gold Star Award program if his range meets the high standards that are set for these fine cooking appliances.

The Gold Star Award range is the homemaker's assurance of the fastest, coolest, cleanest, most modern, most carefree and economical cooking she ever thought possible. Such ranges provide the ultimate in performance and customer satisfaction.

Among the 28 features the Gold Star Award range must have to don the gold seal are the marvelous "burner with a brain," interval timer, self-lighting broiler and oven, plus numerous other automatic and time and work-saving devices.

The owner of a Gold Star Award range also gets the exclusive advantages that only gas can give, like smokeless, closed-door broiling, no hang-over heat and other famous cooking features so greatly in demand by the modern homemaker. The features are also available on numerous other top-of-the-line gas ranges not wearing the gold seal.

This latest innovation in the gas range galaxy of ingenious cooking equipment provides gas ranges with the distinction of "being the world's finest." These gas ranges will make their main debut during the April-May spring range campaign featuring those ranges that have qualified for the American Gas Association's Gold Star Award. Participants will be gas appliance dealers and the Lone Star Gas Company.

The sales drive, featuring special Gold Star Award range introductory prices, will be publicized through newspaper, radio and television advertising, display materials, billboards and promotional materials. Television commercials will be a combination of animation of the Gold Star seal and live demonstrations of the main features of gas cooking. Merchandise television commercials will be live studio demonstrations of a gas range of a leading manufacturer.

Kincaid Gas & Appliance Company, White Auto Store and H. & M. Tire and Appliance Store are Hamlin dealers participating with the Lone Star Gas Company in the campaign.

MUSIC TO SOME.

It was an opening appearance of the Philadelphia Symphony Orchestra, with Stokowski at his most majestic. The music was crashing and thunderous, when suddenly there fell an abrupt and complete silence, beginning a brief but absolute rest in the music.

Out of the stillness there came a high pitched feminine voice, full of reproach. "But," it said, "I always fry mine in lard."

Modern Tappan Range Highlighting Numerous Work-Saving for Facilities

After months of intensive research into homemakers' preferences the Tappan company has introduced a startling new 40-inch gas range.

Called the Revelation, the new gas range features a high glass splashier panel with a stunning gold fleur-de-lis design. Trimmed in beautiful, durable chrome, the backguard is raised to protect walls from grease splatters. A full-width fluorescent tube extends its full length, eliminating all shadows on the top cooking surface and work area below. Concealed from sight on the panel is an oven vent, which is deflected to help keep the kitchen wall clean.

Three basic controls are housed in the modernistic Tel-U-Set control center which accents the charming warmth of the range. An automatic clock governs oven time, turning the heat on and off automatically, at times set by the homemaker. A dial for the roaster is located left of the automatic clock. The visaguide contains finger-tip information on the proper cooking times and temperatures for favorite foods, eliminating

BURNER WITH A BRAIN—You don't even have to be in the kitchen when the "burner with a brain" takes over the cooking operation. It cooks delicate custards and other foods on top of the gas range without a double boiler. It also makes every cooking utensil an automatic appliance. All the homemakers need do is "just set it and forget it." Many families want this ingenious heat control on several burners, including the griddle. It is one of the features of Gold Star Award ranges.

Revolutionary Burner-with-a-Brain Provides New Experiences in Cooking

Exciting new things are happening in the kitchen today!

Imagine being able to cook delicate custards on top of your gas range without a double boiler, mashed potatoes that stay moist and warm for an hour or more without sticking to the bottom of the pan, cocoa that never forms a scum, batch after batch of golden griddle cakes, each one perfect; pressure cooker foods without constantly adjusting the temperature, deep fat frying without smoking, perfect hollandaise sauce as easy as boiling water.

You needn't even be in the kitchen!

These are just a few of the magic tricks you can perform today. What makes this possible? It's the new younger sister of the dependable oven heat control—the revolutionary new, thermostat top burner heat control which automatically maintains temperature settings, making the cooking of even the most delicate foods absolutely fool-proof.

It is so sensitive and "smart" that it has earned the title of the "burner with a brain."

Here is how it works: The control, one of the features of Gold Star award as well as other gas ranges, consists of a small sensing element in the center of the burner, which literally "takes the temperature" of the cooking utensil and signals this temperature to the thermostat controlling the burner. When the food in the pan drops below the pre-selected

The biggest easy-to-clean feature of the new Revelation is the lift-up top. The entire top of the range lifts up similar to an automobile hood to enable the homemaker to clean with ease and efficiency.

Safety lock valve knobs are designed to look like butterflies against the chrome control panel. A new adjust-to-height broiler mechanically adjusts the distance between flame and food. By simple finger operation of a lever the homemaker can raise or lower the broiler rack, without moving it, to achieve broiling level. The broiler is also equipped with an extra deep broiler pan and a chromium broiler grill.

The completely automatic oven is large enough to accommodate an entire dinner. Also equipped with Tappan's famous chrome lining for faster, more uniform baking, the oven has a removable bottom for ease in cleaning. The oven also features a wide-vision visaguide lift-off oven door and matchless burner ignition with a cool-pilot.

Construction features include the toe-plate base and a life-time titanium porcelain finish. H. &

sil becomes an automatic appliance with foods cooked to perfection every time. Best of all, burning, scorching, boiling over, under-cooking and over-cooking become a thing of the past. Since this is an automatic control on your gas range, you needn't even be in the kitchen.

Just set it and forget it!

The ingenious new top burner heat control can also be hooked up to the griddle, deep well cooker or one or more top burner units. Or, if you prefer, you could have it installed on the griddle as well as a top burner. Many families want it on several burners, because the control makes it possible to use the top of the gas range for such foods as delicate custards, upside-down cake, puddings and similar delicacies, which

ordinarily have to be cooked in the oven because they require even constant temperatures. Too, custards, puddings and the difficult sauces such as hollandaise, can be cooked without a double boiler.

Vacuum type coffee can be made from the burner or change of adjustment since the "burner with a brain" automatically reduces the gas flame when the coffee is done.

Yes, indeed, Mrs. Housewife, kitchen magic is no trick at all these days when you have a modern gas range.

Today's homemaker spends less than three hours a day preparing meals in an all-gas kitchen. The housewife of yesteryear had to work nine hours a day in a hot, smoky kitchen to cook her family's food.

Today's homemaker spends less than three hours a day preparing meals in an all-gas kitchen. The housewife of yesteryear had to work nine hours a day in a hot, smoky kitchen to cook her family's food.

Whirlpool Ranges Answer Demand For Practicability

Distinctive gas stove models of the RCA Whirlpool offering for the modern homemaker meet the demand for practicability, economy and beauty, declares G. W. Kincaid of Kincaid Gas and Appliance Store, the dealer for the Hamlin territory.

Throughout the Whirlpool line Gold Star specifications and requirements are found as Whirlpool features—vivid proof of the basic quality of each Whirlpool range.

Quality in construction and materials has been essential to the Whirlpool's success in bringing American housewives modern, automatic cooking at a budget-minded price. Whirlpool's development of the "dream" range at a down-to-earth price is considered the major factor in the phenomenal rise of Whirlpool products' popularity.

Modern automatic features of the Dixie Gold Star Award ranges include a second oven and built-in rotisserie, plus center simmer tip burners and an automatic top burner, heat control, griddle, oven window and interior oven light, plus automatic oven ignition.

Other features that make the Whirlpool range popular with the busy housewife include a barbecue meat oven, balanced heat bake oven, waist high broiler and automatic clock timer.

TIME IN KITCHEN LESS.

Today's homemaker spends less than three hours a day preparing meals in an all-gas kitchen. The housewife of yesteryear had to work nine hours a day in a hot, smoky kitchen to cook her family's food.

ordinarily have to be cooked in the oven because they require even constant temperatures. Too, custards, puddings and the difficult sauces such as hollandaise, can be cooked without a double boiler.

Vacuum type coffee can be made from the burner or change of adjustment since the "burner with a brain" automatically reduces the gas flame when the coffee is done.

Yes, indeed, Mrs. Housewife, kitchen magic is no trick at all these days when you have a modern gas range.

A Believe-It-or-Not Price Left-Over...

RAND NEW BROWN RANGE. Three-burner with large oven. A good Gas Range for \$59.50

BUIE'S in Stamford lay claims to offering the lowest priced Gas Ranges in West Texas with the new model Brown three-burner on top, and extra large oven—all for \$59.50.

"Naturally," says Buie, "we can't claim that this is a luxury range at this depression price, but it is a nice cooking range at around one-third of the overag lowest cost range. We here at Buie's have been trying to find the lowest cost items for our friends and customers, as prices on many items have advanced too much!"

Many Automatic Features Pinpoint New Gas Ranges

What the homemaker wants today is an up-to-date cooking appliance. She wants the latest thing, the most modern, and by modern is meant the most automatic, the one with the most automatic features.

There is no cooking appliance more automatic than a gas range. Every automatic device developed for cooking appliances is available on gas ranges. Here's a brief description of these numerous time and work-saving features:

Gas ranges are equipped with automatic "matchless" lighting for oven, broiler and top burners. Automatic clock controls turn ovens on and off at pre-determined times.

Another new automatic feature on gas ranges is the "burner with a brain" which controls temperature for top-of-the-range cooking. It prevents over-cooking and under-cooking and gives consistently good deep fat frying, pan frying, broiling or griddle cooking without separate appliances. It makes an automatic appliance out of the most simple pots and pans.

Gas ranges carry dozens of special features, in addition to the automatic features. These include separate simmer burners, giant and super-giant burners, low-heat pilots, "oven ready" indicator lights, removable rack guides, chrome oven liners, retained heat ovens, lift-up cooking tops, built-in meat thermometers, rotisseries, deep-well cookers, griddles and deep fat fryers. Many of these special and unique cooking features are on the Gold Star Award gas ranges that must contain 25 or more specified requirements before they can wear the Gold Star seal.

Gas Ranges Provide Fast Speed Cooking

Want speed in cooking? "Gas has got it!"

Gas range manufacturers now offer high speed giant burners up to 20,000 BTU, making them the fastest on the market. If you count the seconds in brewing a morning pot of coffee, in bringing water to a fast boil, for deep fat frying, canning and preserving, then you will find these high speed burners the ideal answer.

CHEF'S DELIGHT—A top-of-the-range rotisserie is a feature of Tappan gas ranges. This handy man around the house is roasting ribs that will wind up indoors with an outdoor barbecue flavor. The rotisserie is optional equipment on most Tappan gas ranges. Tappan's new 40-inch range the Revelation has many special conveniences, such as an easy-to-clean feature, a lift-up top. A visaguide contains fingertip information on the proper cooking times and temperature for favorite foods, eliminating bothersome references to the cook book.

Cool Cooking Made By New Gas Ranges

How cool is cool cooking? Cooking means the application of heat to food to make it palatable, and every homemaker knows that it takes heat to cook. But she wants cooking made as cool as possible.

No cooking is cooler than gas cooking. There is no left-over heat from top burners, no open door broiling. Gas is flexible so the heat is instantly on, instantly off.

Someone has said: "Keep the heat inside the oven to cook the food rather than coming into the room to cook the cook." The finest insulation available is used in gas ranges.

Ballpoint pen refills at Herald

Oven Construction Of New Gas Ranges Provides Flexibility

A gas oven is a fresh air oven! This means it has even heat distribution. Foods may be placed on any rack, top or bottom, back or front. Appliance engineers have carefully designed gas ranges so fresh air is constantly brought into the oven and circulates through the oven at correct temperature. This circulating air system is built in. It is not necessary to open the oven door.

Gas ranges offer a choice in oven sizes from standard to giant size. Even standard size, however, will hold the largest roasting pan or four layers of cake. This generous capacity means one of their greatest conveniences, one of the real time and work-saving

Catalina Ranges Highlight Scores Of Fine Features

From the 20-inch apartment size to the larger dimension cooking appliances, Catalina gas ranges offer handsome styling, time and labor-saving features and numerous devices of convenience and operating efficiency.

Offered in Hamlin by White's Auto Store owned by B. O. Bell, the Catalina is equipped with automatic "matchless" oven ignition and automatic top-of-range cooking. It has the added conveniences of two giant conventional burners, a giant simmer burner and the "burner with a brain" that makes every pot and pan an automatic cooking appliance.

The Catalina offers these exclusive cook-easy features:

Jet speed burner—An entirely new kind of burner that provides greater speed, lower turn-down, more uniform heat and is easier to clean than any other burner.

Huge chrome-lined oven whose gleaming sides assure perfect baking results. Chrome reflects the heat, heats faster and more uniformly.

Divided top allows work space for two. Conveniently gives you plenty of room, with two of the world's fastest burners on each side.

Lift-off oven door of the Catalina lets you reach every part of the crevice-free oven without stretching or straining.

Built-in griddle is convenient for pancakes, eggs, hamburgers and other grilled foods. Heat indicator assures perfect results.

Revolve-a-broiler swings out on hinged door for ease of operation and cleaning.

I love a hand that meets my own with a grasp that causes some sensation.—F. S. Osgood.

features—the space to cook complete meals in the oven.

Automatic clock controls mean the homemaker can place a complete meal in the oven, set cooking time and temperature and the oven is automatically turned on and off at the proper time.

There's satisfaction in "absentee cooking" furnished by a modern gas range. It gives the homemaker opportunity to go shopping, attend her favorite bridge club and otherwise be "miles away" from home while the cooking merrily goes on.

Stove Construction Makes Cleaning Easy With Modern Range

Gas ranges are easy to clean and easy to keep clean.

If a range is wiped off at clean-up time, is given a daily care, it stays like new. Occasional thorough cleanings may be necessary, but they are not hard work. Removable parts go to the sink for easy cleaning. Porcelain finishes are smooth without cracks and crevices.

Never worry about washing a broiler pan because it is as easy to wash as any plate if you follow a few simple steps. Place food on a cold pan to begin broiling—this way it won't stick. When food is broiled, remove it from the broiler grid, drain any juices or drippings from the pan underneath, then sprinkle the hot grid and pan with detergent and cover them with wet towels or a wet cloth. Let them stand until clean-up time. Food particles are kept soft this way and both grid and pan will wash easily.

Should something spill over in the oven or spattering fat and meat juices stain the oven, one-half cup of ammonia in a shallow dish left in the oven several hours or overnight will soften the spots and stains so they will easily wash away.

Range Colors Offer Decorator Variations

Gas range enamel surfaces now come in black, blue, brown, copper, green, grey, green, pink, red, tan white and yellow. Metallic finishes come in antique bronze, antique copper, bright chrome, satin chrome and stainless steel. Surveys by the American Gas Association show that yellow and green are favorite colors. Stainless steel and chrome finishes add decorative touches.

There's a gas range with a color or metallic finish to fit any kitchen decor.

When carriages first came into use during the sixteenth century they were scored by men as suitable only for women and children.

Top Burners on New Gas Ranges Offer Flexibility

Top burners on gas ranges are flexible and they also provide the fastest cooking possible. They remain at a fixed position if desired, but there are hundreds of temperatures in between—not a limited few.

Foods are quickly brought to a boiling point on full flame and also instantly reduced to a simmering temperature when the burner is turned to simmer setting.

A "keep warm" setting keeps hot at the sound of a click of the dial and keeps them hot without further cooking. This setting is just right for melting butter, margarine or chocolate.

Burners are so flexible they not only offer hundreds of temperatures but their construction means flexibility, too. Any size utensil of any design or material may be used.

Gas burners are instantly on. With a flick of the wrist, the burners come on full and cooking begins immediately. There is no waiting for warm-up. This means fast cooking.

This fast cooking means much in the busy lives of today. For instance, home economists have found that in using a gas range a breakfast of orange juice, bacon, eggs, toast and coffee for a family of four can be prepared in just 10 minutes from start to finish. This was done by working normally as the average homemaker would work. They didn't set up any streamlined methods.

NO COOPERATION.

The guest came downstairs after his first night in the hotel.

"I trust you had a comfortable night, sir?" said the manager.

"I had a terrible night," snapped the guest, "I didn't close my eyes all night."

"But that's your own fault, sir," retorted the manager. "If you want to sleep, you must close your eyes."

Today's Gas Ranges Make Cooking for Family Fun and Meals That Are Right

When you see a modern homemaker at a modern gas range it's easy to understand why Americans are the best fed people in the world. Cooking is a source of pride with every woman. She really appreciates a range that will allow her to try her hand at new dishes, turn out family favorites, prepare company meals, secure in the knowledge that every dish will be cooked to perfection.

Whether you are an accomplished cook or a young bride learning the tricks of culinary art, you'll find a gas range model to gladden your heart. Here are some of the reasons why:

A meat oven, entirely separate from the bake oven, that gives a choice of regular grill broiling, rotisserie broiling and deep pan barbecue broiling. Radiants are provided to give that ember-like glow, and the sealed-in flavor associated with charcoal broiling.

For preparing shish-kebab, barbecued spare ribs or broiled steaks or chops, you'll find greater flexibility in use of the motorized rotisseries. As many as three revolving spits can be in use at one time. These come with the smaller ranges, too.

Several firms have added a second broiler, made especially for appetizers and other party snacks. One snack broiler is incorporated in a large gas range that also has a built-in broiling compartment with broiling rack and serving tray, and a porcelainized crisping drawer.

Broiling trays designed for extra special good looks double as serving trays. Built-in meat thermometers where you merely set a dial, insert a probe, turn on the oven and forget it. When the roast is done, the heat will turn off automatically. In some models a signal light on the back splash informs that the roast is ready to serve.

Design features on bake ovens emphasize thick insulation, good circulation and improved door

seals to provide even heat at exactly the desired temperature. Oven windows, interior lighting, extra capacity removable side racks are offered in various combinations by different manufacturers. One has devised an "oven ready" signal to tell you when the pre-heated oven is ready for your cake or pie.

An accident-proof oven rack cannot be pulled out too far, yet may be removed for easy cleaning. Another ingenious arrangement is a periscope device that lets you watch what's baking by merely looking into a mirror on the back splash. An oven liner fed by a roll of aluminum foil can be replaced in an instant.

Oven controls give greater freedom than ever—one actually controls six hours of cooking time. New oven burners produce the desired temperature more swiftly, yet consume less heat. Counterbalanced oven doors are easy to operate.

The steady march toward better top burner cooking has by no means been neglected with automatic top burner heat controls, the star of the show.

The "burner with a brain" is being used with built-in griddles for sure results without burning, sticking or smoking, even for delicate crepes suzettes.

Super speed burners, convenient simmer units and disposable aluminum liners for burner bowls are among other features. All gas ranges are designed for easy cleaning, and in one model the entire top lifts up as a single unit.

Built-in ovens, broilers and surface units offer the widest flexibility of arrangement in the history of cooking. Their popularity remains undiminished.

These and numerous other features of convenience are offered with the modern gas ranges which may now be seen on dealer sales floors.

Many of these cooking refinements are features of Gold Star Award ranges.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Austin. — With just about a month left between now and May 12, automatic adjournment date, it's "now or never" time in the Texas Legislature.

Bill sponsors are challenging other members to "pass it or kill it." No more playing the waiting game. Less juggling of the parliamentary ball.

House Speaker Waggoner Carr gave this "get with it" mood a strong shove by taking a firm stand on tax goals. "There is no Santa Claus," Carr told House members. Texas must raise some \$300,000,000 in new money to meet its obligations, he said. On "how to do it," the speaker made these suggestions and observations:

1. A bill is needed "which will include a broad array of selective taxes—including, but not confined to selective sales taxes."

2. A general sales tax is "out." Lawmakers will—and should—keep their promises not to pass one.

3. "Broad" taxation would include upping levies in areas suggested by the governor—natural gas, liquor, cigarettes, corporations—but at a lower rate than suggested by the governor. In addition, many new items would be added, in keeping with the "spread thin" hurt little" principle.

4. "Piece-meal taxation" is unfair, inadequate to the present challenge. State government should not "reward political favorites." New taxes should be "spread across as much of the Texas economy as possible."

5. Likewise on appropriations. If college professors and state employees get a raise, public school teachers should, too.

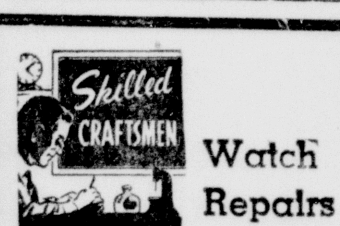

Carr's speech was regarded as public announcement that he is taking the reins of leadership to get a tax program passed.

Governor Price Daniel's comment on Carr's statement was in the vein of "why didn't you say so before?" Daniel said "I am in agreement with much of it and only wish it had been made 30 days earlier."

House Taxation Committee Chairman V. L. Ramsey of Beckville named a five-man committee to write a tax bill and have it ready early next week.

Given the task are Representatives Wesley Roberts of Lamesa, H. J. Blanchard of Lubbock, Joe Burkett of Kerrville, Ben Atwell of Dallas and Warren C. Cowen of Fort Worth.

Abandoned Property Bill.—Gov.

Watch Repairs

WITT JEWELRY Co.
Next to White Auto

ernor's abandoned property bill has been reported favorably by the House "tax committee" but sponsors claim it has been "gutted" by committee action.

As originally proposed the bill would have allowed the state to take over bank accounts and money and property held by banks, insurance companies, oil and gas companies, etc., if unclaimed for seven years.

As amended, the measure cut out all holdings except bank accounts and upped the waiting period to 20 years.

Representative Marshall O. Bell of San Antonio, sponsor, said this would take away 60 per cent of the revenue raising possibilities.

Texas in 1980.—Creation of a vast "government center" that would cover most of an area seven blocks long and four blocks wide is the aim of the capitol hill master plan.

Legislators, whose assent will be needed to make the dream a reality, got a preview of the 20-year plan from architects and building commission members.

Governor Daniel said the \$37,000,000 project could be financed with no new taxes. Income, he said, would come from the confederate pension fund, funds of state agencies now paying rent for privately owned buildings and funds now available to the building commission.

Recommended steps for 1960-61 are buying up several more blocks of land and remodeling the capitol to provide offices for House members.

Party Registration Fight.—A watered-down party registration bill is in line for House consideration after approval of the elections committee.

Original proposal by Representative Jamie Clements of Crockett would have required that a voter state his party preference and have it stamped on his poll tax at time of purchase. Thereafter, the carrier of a "Republican receipt" could not vote in a Democratic primary and vice versa.

Attorney General Will Wilson ruled this unconstitutional. He said it set up requirements for voting not authorized in the constitution.

As amended, the measure provides that a voter would have his receipt stamped when he voted in a primary or participated in party conventions. This would prevent his participating in the convention of a different party until he bought a new poll tax. Liberal Democrats particularly DOT spokesmen, were very dissatisfied, even called the attorney general's opinion "dead wrong."

Help for Buses.—In this two-cars-in-every-garage age, public transportation companies say they have fallen into hard times, and need tax relief.

A bill to lower the license fees on motor buses to a rate equal to trucks of the same weight has Senate transportation committee

STRICTLY BUSINESS

by McFeaters

"Tell me all about yourself, Argyle—in exactly one minute. I'm a busy man!"

approval. It is sponsored by Senator George Parkhouse of Dallas. City transit companies are asking to be relieved of motor fuel taxes. Representative Warren C. Cowen of Fort Worth is sponsoring a measure to do this.

Transit companies are caught in a cost squeeze, say supporters, that makes it hard to continue serving working people at reasonable rates. San Antonio transit lines had to give up, were taken over by city government.

Sunday Sale Ban.—Senate has given final approval to a measure that would prohibit selling, buying or trading motor vehicles on Sunday.

Exempted would be persons who observe some day other than Sunday as the Sabbath, such as Seventh Day Adventists.

Bill had lively opposition from several senators whose argument was that it would "restrict competition in the name of Christianity."

In-a-drawer broiler glides on roller bearings. Extra thick Fiberglass insulation locks oven heat in, keeps kitchen cool. What a buy!

UNIVERSAL MODEL 8072X
You've got to see it to realize what a value this super-efficient range really is. It "has everything" including large picture-window oven for largest size meals... In-a-drawer broiler with drop door... famous burner-with-a-brain that won't let food scorch ever... Timer and convenient outlet... other fine-range features galore.

Dates of June 7-12 Set For Camp Fire Girls Camp Near Lueders

Dates have been set for the annual Camp Fire Girls camp for girls of this section for June 7 through 12 at Camp Odako, which will be at Lueders. Boy Scout Campground, southeast of Stamford.

Approximately 115 girls, Camp Fire Girls and Blue Birds, ranging in age from seven to 14, attended the camp last year, with a staff of 25 adults, including camp director and health nurse.

Approximately 50 per cent of the Camp Fire Girls of the Stamford area attend. Other councils represented are from Hamlin, Haskell and Knox City. Also girls attend from Breckenridge, Fort Worth and Midland.

Mrs. W. C. Taylor will be executive camp director this year for the fourth consecutive year. H. G. Andrews Jr. is president of the executive board, and Dr. Tony Selmon will be serving as camp chairman for his second year.

Reservation dates begin April 1 and close May 1, Mrs. Taylor announced.

Soil Conservation District Recounts Good Year's Work

Farmers and ranchers of the Hamlin territory, covering the area of the California Creek Soil Conservation District, have taken advantages of many of the services offered by the district during the past year, point out officials of the district, with headquarters at Stamford.

All forms of soil and water conservation have been practiced by participants in the program. Crop lands have been improved with crop rotation, contour farming, terrace and diversion ditch construction, and with brush control, deferred grazing and range seeding in the pasture areas.

A review of the past year's activities by SCS officials shows the following practices completed by cooperators:

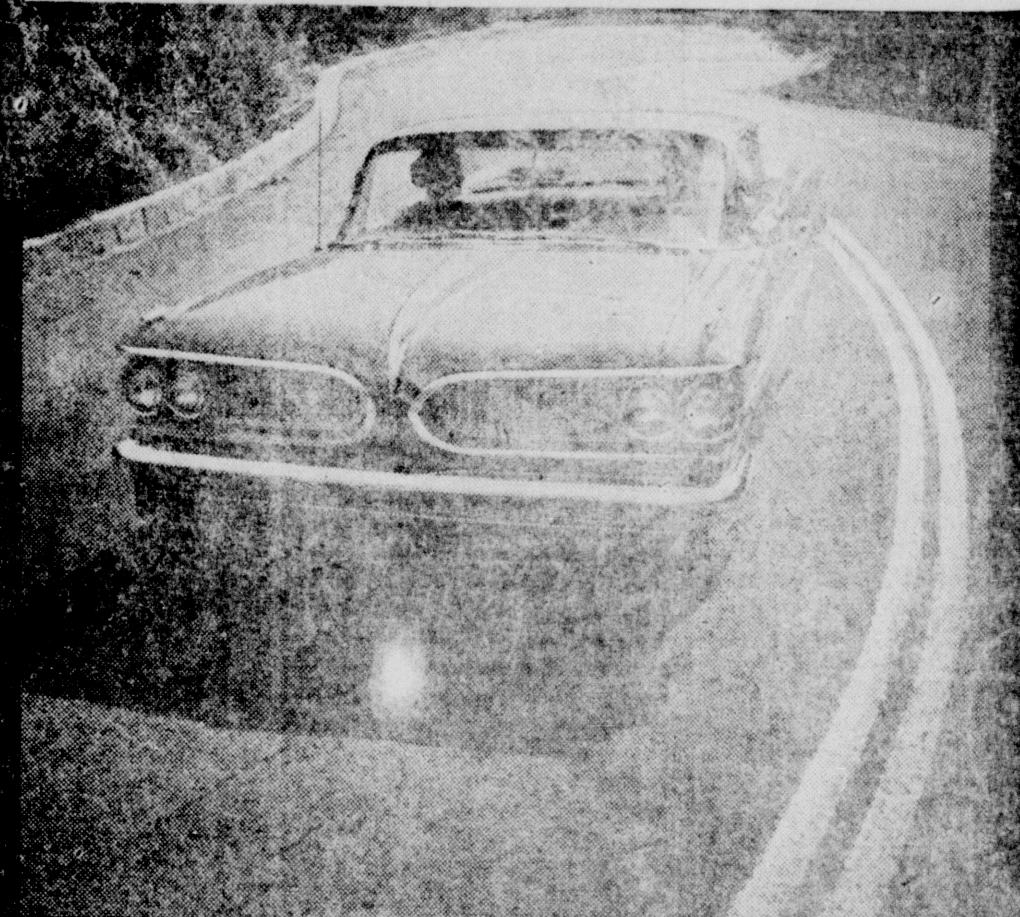

425 acres of crop rotation; 3,049 acres of contour farming; 5,970 acres of cover cropping; 16,264 acres of crop residue utilization; 6,516 acres of rotation hay and pasture; 1,644 acres of stubble mulching; 3,442 acres of brush control; 6,694 acres of deferred grazing; 111 acres of pasture planting; 8,643 acres of proper use of range land; 298 acres of range seeding;

Also 15 ponds stocked with fish; 56 acres of wildlife areas developed; 2.1 miles of diversion terraces; 455 acres improved water application; 58 acres of land leveling; seven miles of laterals; 11 ponds; 558 miles of terraces; 20.1 acres of waterways; and four waterways constructed.

American Explorer Kit Carson was in charge of an expedition that drove 6,500 sheep from New Mexico to California in 1853.

Congressman Burleson Discusses Sonic Boom and Its Effect on Today's World

If you have not heard a sonic boom, it likely will not be long before you do, declares Congressman Omar Burleson of Anson, who discusses them in this week's news release to The Herald from his post in Washington. His release continues: You will not have to visit an air show or live near an air base. It may awaken you in the night. It may set the dishes jumping in the cupboard at any hour of the day or night, no matter where you live.

Instead of finding an answer to a problem, the problem is increasing day by day. Within eight to 10 years from now commercial planes will be breaking the sound barrier. Contrary to popular understanding, when a plane breaks the sound barrier by flying at a speed of 750 miles per hour at sea level, the barrier stays broken as long as the plane flies at that speed or greater. In other words, it is not one boom, but a continuous boom affecting everything in the path of the shock wave which it creates.

About a year and a half ago the experts were more or less saying that the shock waves from the breaking of the sound barrier could not really harm property on the ground. Since plate glass windows and damage to plastered ceilings and walls occurred in Hamilton, Comanche, Erath and Eastland Counties, all located in an area designated for the testing of supersonic planes, both the Air Force and Civil Aeronautics have recognized that damage can be done. However, the psychological effect on people is probably worse than the physical damage. A shock wave coming out of a clear blue sky from a plane which is not seen and many times not even heard, is a disturbing experience, to say the least.

A plane flying at 59,000 feet over the city of Milwaukee upset the entire populace and created near panic. Telephone circuits

were jammed with inquiries as to what was happening.

Atmospheric conditions make a tremendous difference, according to the experts. Ordinarily a plane breaking the sound barrier at or above 35,000 feet is not severe; but a plane at 10,000 feet, flying at supersonic speed, concentrates the shock in a more narrow cone, resulting in greater severity. So, the answer lies not entirely in keeping a plane at or above 30,000 or 35,000 feet, although the shock is less concentrated.

North American and Convair, aircraft manufacturers in the Fort Worth area, and the Air Force are both conducting tests at various levels in a corridor running north and south from an area east of Abilene to the Mexican border. In consultation and contacts with representatives of North American, Convair, the Air Force and Civil Aeronautics, I have insisted that they shift the area to sparsely settled areas of Southwest Texas or over the Gulf of Mexico. This may be the answer for the immediate, but in a few years the giant B-58 bomber will be stationed at Dyess Air Force Base in Abilene. With these planes capable of breaking the sound barrier, it means that the problem will be more severe. Even sooner, a jet fighter plane taking off from a field will be capable of breaking the sound barrier in its immediate climb. A commercial plane from New York to Los Angeles, flying at supersonic speed, will be creating a sonic boom shock, promptly all to its flight across the entire continent. There appears to be no answer to the problem at this time.

In the meantime, should damage occur to your property from a sonic boom shock, promptly make a note of the hour and even the minute it occurred, and report it to me immediately. I shall do my best to see it is placed in the

KERRY DRAKE

DePriest Students Win Second Place At District Meet

Students of DePriest Colored School placed second among the schools of Central West Texas last Saturday in the literary events at the district Interscholastic League meet held at Big Spring. The contestants amassed a total of 87½ points.

The following pupils placed first in the literary events and they will go to Prairie View A. & M. College to take part in the state meet: Dorothy Butler, story telling; William Henry Brown, senior declaiming; Jack Wilbert Breedlove, junior declaiming; Jesse Gilbert, male solo; Sarah Oliver, piano solo; vocal octet composed of Bertha Douglas, Juanita Douglas, Earlene Davis, Bertie Brown, James Pinkard, Fred Thompson, Hardy Nabors and Aubrey Gene Scott.

Second place winners were William Henry Brown, extemporaneous speaking; and Marie Griffin, arithmetic.

Third place winners were Johnnie Jones, Ola Mae Thompson and Johnnie Mae Thompson, home-making exhibit; Barbara Jeffrey and Douglas Powell, junior spelling.

Participants in athletic events at the district Interscholastic League met who placed were Robert Jones and John Henry Chase. Chase ran in the 220-yard dash and 880-yard run. He placed third in the latter event. Jones ran in the 220-yard dash but did not place.

Contests for the one-act plays will be held Saturday, April 11, at Colorado City. Lola Mayes and James Pinkard will represent DePriest School in a play entitled "Their First Quarrel."

hands of the Air Force or the plane manufacturing companies, or you may report it directly to them.

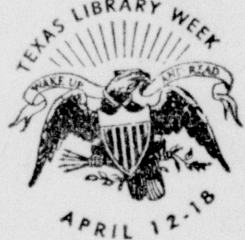

Earlier, when the experts presented some arguments that damage could not occur from the shock waves created by a plane flying at supersonic speed, it reminded us that the scientists in aerodynamics concluded that the bumblebee could not fly. But the bumblebee was not aware of his plight, and does.

BUY A BOOKPLATE HELP OUR LIBRARY

April 12 through 18 is Texas National Library Week. This year you can be part of this important program.

Our libraries need books. Buying books through bookplates is the Texas way of providing these books. All money received from bookplate sales will be used to buy books for the Harden Memorial Library in Hamlin.

Each bookplate you buy will have your name as the donor and be placed inside a new library book purchased with your contributions, announces Mrs. Tate May, who is directing the local drive for the Hamlin Woman's Forum, sponsor of the local library.

Freight Carloadings For Santa Fe Still Up

Freight carloadings for the Santa Fe Railway System for the week ending March 28, 1959, were 24,708 compared with 21,808 for the same week a year ago, reflecting a continuing climb. Cars received from connections totaled 12,613 compared with 10,296 for the same week a year ago.

Total cars moved were 33,321 compared with 32,104 for the same week a year ago. Santa Fe handled a total of 37,288 cars in the preceding week this year.

Changes Made in County Assistance Program Method

Changes in the assistance programs for Jones County have been recently made, according to word from H. G. Andrews Jr., county judge, who supervises the program for the county.

Issuing date for surplus commodities has been changed to the second and fourth Wednesdays and Thursdays of each month. "Next issuing date will be April 8 and 9. One reason for making the change is that frequently, as in the month of April, the first Wednesday comes on the first or second of the month, and this does not give us time to secure the commodities from Brownwood. We have to fill out forms and make requisitions for the commodities to be replaced each month," said Judge Andrews.

The current number of people signed up for commodities is 1,515. Of this number more than one-third are receiving public assistance from the state in the form of old age assistance, aid to dependent children and aid to the blind.

Two surveys have been made in the last six months by the Texas Employment Commission to determine whether any persons on this roll are available for farm work or other jobs. Only two persons were found the first time the survey was made and no persons were found the second time the survey was made.

All kinds of pencils at Herald.

Resolve Now to File Next Return Earlier

We won't say that we told you away back, the week after Christmas, to file your income tax in January, declares Tax Man Sam in a release this week to The Herald. Time has passed and many of us are among those taxpayers who never mustered the courage to file that tax return before the last minute.

If the shoe fits, here's what you ought to do: (1) Read your tax instructions; (2) carefully figure your tax; (3) check your arithmetic; (4) don't forget to sign it (ma and pa) (5) be sure to attach your W-2s; and (6) if you owe tax, make the check payable to Internal Revenue Service. It sure is simple. We know that you wish that you had filed it on January 10. Next year you can keep the New Year's resolution to file early.

OUT OF THE FIRE.

The guest at the dinner party arriving late, found a seat reserved for him near the head of the table, where a goose was being carved.

"Oh," he exclaimed, "so I'm to sit by the goose."

Then, observing the lady on his left, he made haste to amend an awkward phrase. "I mean," he said, "the roasted one, of course."

The Home of TODAY . . . and the FUTURE

Live in a Home as

Modern as Atomic Power

...THE MEDALLION HOME

LOOK FOR THE MEDALLION . . . IT IS YOUR ASSURANCE THAT THE HOUSE MEETS MODERN ELECTRICAL REQUIREMENTS

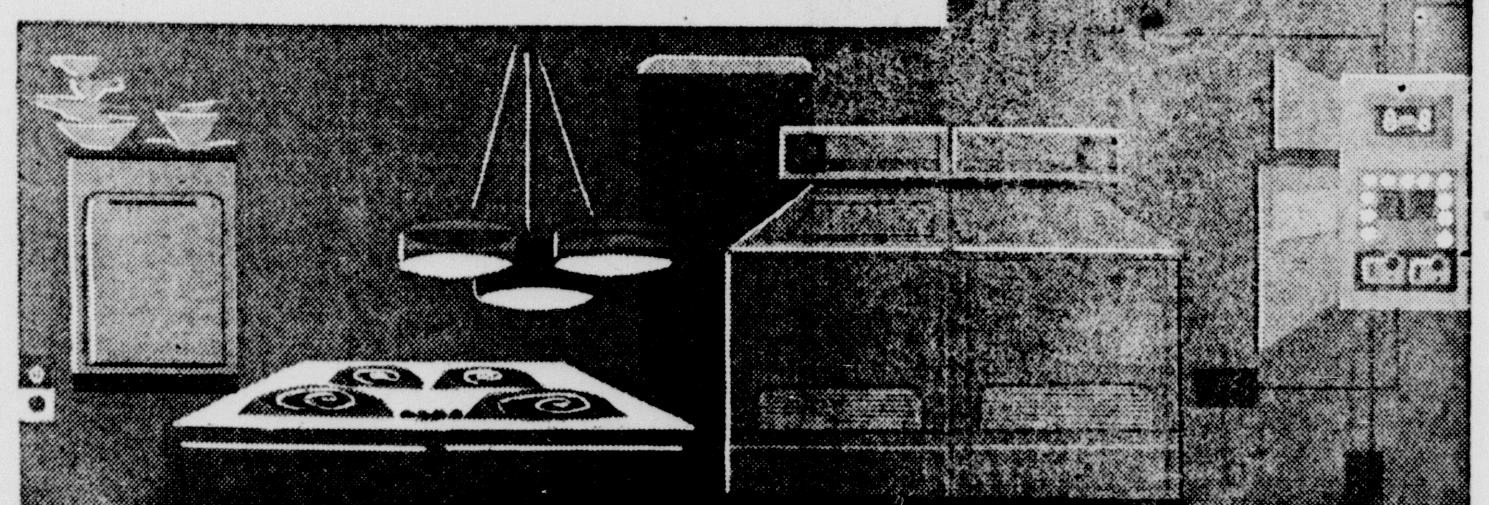

A Medallion Home is a home that meets certain minimum standards that qualify for certification that you are getting a modern, livable, efficient home. The new Live Better Electrically Medallion is a handsome bronze plaque certifying that the home is completely modern, ELECTRICALLY.

A Medallion Home has plenty of Housepower (adequate wiring) for full electrical living. It is equipped with wonderful labor-saving, time-saving electric appliances that make really modern living possible. And it has good lighting—light that saves your eyes while beautifying your home.

Because your home is the biggest and most lasting investment your family will ever make, protect that investment by getting a Medallion Home. The Medallion is your GUARANTEE of a home that will be modern in the Atomic Age as well as today!

Electricity costs so little! you can use lots of it!

West Texas Utilities Company

YOUR HOME BUILDER, ELECTRICAL CONTRACTOR OR WEST TEXAS UTILITIES COMPANY WILL BE GLAD TO GIVE YOU FULL DETAILS ON HOW TO MAKE YOUR HOME A MEDALLION HOME AND EXPLAIN HOW YOU MAY PLAN TO OWN ONE.

Texas Government Depends More on Resources Tax Than Any Other State

Texas government depends more heavily upon taxes levied upon natural resources—oil, gas and sulphur—than does any other state, a report on research done for the Texas State Tax Study Commission discloses.

This report states that in recent years nearly one-fourth of the total of state and local revenues have been obtained from taxes levied on these natural resources. The state has received 32 per cent of its tax revenues from those taxes, and the local government 16 per cent.

It is found that Texas state government is more dependent upon severance taxes imposed on national resources than many measurements reflect. To establish the extent of dependency accurately, expenditures may be conveniently grouped into two broad classifications:

1. Highway expenditures, which are largely supported by user taxes on motor fuel and motor vehicles.
2. General government expenditures, which encompass all of the other functions of state government—notably education and welfare—supported by taxes which, for the most part, are not necessarily expected to measure the personal benefit from these services.

In the area of general government revenues, severance taxes have produced 41.6 per cent of such revenues over the past 43 years. Also it is noteworthy that other substantial income is derived from the extractive industries. In 1956 the state ad valorem tax on mineral properties yielded \$12,000,000, mining (primarily oil and gas producing) corporations paid \$10,400,000 in corporation franchise taxes, oil and gas well servicing taxes produced \$1,300,000. If all of these are included, it would be found that Texas depends on the extractive industries, to provide 47.5 per cent of its general government tax revenues.

Services Continuing At Church of Christ Through Sunday

Good interest and large crowds are being reported in the series of gospel services underway at the Hamlin Church of Christ this week according to the minister, Austin Siburt. The services will continue through Sunday.

Preaching in the services is Dr. Rex P. Kyker, head of the speech department at Abilene Christian College. Topics being discussed by the professor are relating to the major problems of life today points out Siburt. The services are being held at 3:00 and 7:30 p. m.

All people of the community are invited to attend the remainder of services at the church.

Music program for the services is being directed by members of the local congregation.

BUG BEAUTY—Outfitted in pirate regalia, Janet Reed looks over the Corpus Christi bay front, the site of considerable activity during the Buccaneer Days celebration from April 30 through May 7.

Good Results from First Baptist Revival

Much good was done in the church and community through the spring revival that closed at the First Baptist Church Sunday evening, declares the pastor, Rev. Calvin Bailey.

Six additions by letter, and six by profession, plus 28 rededication.

Doing the preaching for the series of services was Rev. Robert Smith, pastor of the First Baptist Church at McAllen. Tommy Mosley, regular musical director of the local church, led the music.

Patsy Ann Bell Will Get Sul Ross Degree

Sul Ross State College officials at Alpine have announced that a total of 102 candidates have met the requirements for the bachelor or master degree.

Among those scheduled to graduate is Patsy Ann Bell of Hamlin. Miss Bell will receive the bachelor of business administration degree. A graduate of Denver City High School, Patsy has been active in Sackem Literary Society, Alpha Kappa Phi and the Institute of Business Relations. She has also been an active member of the Baptist Student Union.

Miss Bell is the daughter of Mr. and Mrs. C. M. Bell of 214 Northwest Avenue E.

The music's outlandish; the music don't fit; it's crazy and tuneless—but, boy, what a hit!

Stamford Youth Named President Of District MYF

Ben Bule of Stamford was elected president of the Stamford District Methodist Youth Fellowship in closing business sessions of the conference Monday evening at the First Methodist Church that had attracted scores of representatives from Methodist Churches in this area.

Among other officers named were: Rutha Ammons of Roby, secretary; Sharon Berry of Rotan, fellowship chairman; and Ann Richey of Hamlin, faith chairman.

Following the election, an impressive installation service was conducted under the direction of Jimmy Vaughter of Haskell, retiring district president.

The Monday evening program opened with guests registering in the fellowship hall of the church. Then the young people went to the sanctuary for the program. Jimmy Vaughter presided. Ronnie Parker, youth director for the local church, presented the program. Dannie McCurdy of Hamlin sang a solo, accompanied by Ann Richey. Mike Pelfrey, student at McMurry College in Abilene, was the principal speaker of the evening. His talk tooped was "Faith."

Summer activities for the Methodist young people of Central West Texas were outlined during the Monday gathering.

Hamlin People Go to Carlsbad Final Rites

Several Hamlin relatives went last Tuesday to Carlsbad, New Mexico, to attend the funeral of Mrs. Lillie Mae Birchell, 60-year old resident who died in a Carlsbad hospital last Monday. Final rites were conducted at West Chapel Tuesday afternoon. Mrs. Birchell had been a resident of Carlsbad for many years. She was born in Abilene in 1898 and moved to New Mexico in 1918. She was a member of the Church of God.

Survivors include her husband, four sons, a daughter, four brothers and three sisters. Mrs. T. E. Campbell of Hamlin was a sister.

Sale of Easter Seals Falls Below Last Year

Frank W. Myers Jr., president of the West Texas Rehabilitation Center board of directors at Abilene announced this week that \$10,256.77 had been received in this year's Easter seal appeal, in which people of the Hamlin community had a vital part.

Myers also pointed out that last year's receipts were \$13,014, and strongly urged that those who had not returned their Easter seal donation to do so immediately. The Easter seal campaign runs 30 days before and 30 days after Easter.

Gossip spreads much faster than the truth; that's why there is so much talk of scandal and so little about really important matters.

Another reason that winter, the toughest season, seems to be as far the longest is that it lasts through parts of two years.

HAMLIN MEMORIAL HOSPITAL

Patients admitted to the Hamlin Memorial Hospital since last week's report in The Herald have included: Wade Green, medical, March 29; Max Burleson Jr. of Rotan, medical March 29; Mrs. Wilson Brannon, medical, March 30; Mrs. J. H. Gruben of Rotan, medical, March 30; Mrs. Josephine Knight of Jayton, medical, March 30; Mrs. J. W. Sewalt of Jayton, medical, March 30; Mrs. Willie Alls, medical, March 30; Mrs. Jame Warner of Aspermont, medical, March 30; Mrs. J. A. Williams, medical, March 31; Mrs. Grady Brown, medical, March 31; Mrs. W. L. Terrell of Sylvester, medical, March 31; Mrs. A. Spencer, medical, March 31; Karen Lott of Aspermont, medical, March 31; Mrs. Gerald Woodruff, ob., April 1; Adelle Dixon, medical, April 1; Mrs. A. E. Ball of Aspermont, surgical, April 2; Mrs. C. L. Howard, ob., April 2; Mrs. G. M. Bond, medical, April 2; Mrs. O. E. Hanna of Roby, medical, April 2; Mrs. B. T. Derryberry of Roby, medical, April 2; Mrs. Charles Newland, ob., April 3; Mrs. J. L. Kennedy, medical, April 4; Mrs. Dave B. Scott, medical, April 4; Mrs. E. S. Crew, medical, April 4; Mrs. A. J. Winegeart, medical, April 5; L. H. McCollum of Sylvester, medical, April 5.

Patients Dismissed—Mrs. Ross Gruben, April 3; F. M. Perry, April 3; S. C. Ferguson Sr., March 30; Mrs. J. W. Stapler, March 31; Arlene Forbes, April 4; Mrs. Tom Campbell, March 29; Wade Green, April 1; Max Burleson Jr. of Rotan, April 4; Mrs. Wilson Brannon, April 2; Mrs. Willie Alls, April 2; Mrs. Jamie Warner of Aspermont, April 3; Mrs. J. A. Williams, April 3; Mrs. W. L. Terrell of Sylvester, April 6; Mrs. Gerald Woodruff, April 5; Karen Lott of Aspermont, April 4; Adelle Dixon, April 5; Mrs. B. T. Derryberry of Roby, April 5.

Slump Recorded by City Sunday Schools After Easter Record

Following the high mark of the year made by Sunday Schools of Hamlin churches on Easter Sunday, the attendance slumped considerably Sunday. The 1,375 total was 155 less than the previous week and was 44 less than the year ago total.

Attendance, by churches, for April 5, March 29 and a year ago follows:

Churches—	Apr. 5	Mar. 29	Year Ago
Ch. of Nazarene	97	104	126
Fath Methodist	60	100	27
Oak Gr. Col. Baptist	54	78	58
No. Cen. Baptist	92	99	78
First Baptist	408	394	452
Foursquare Gospel	62	66	72
Church of Christ	175	172	172
First Methodist	215	308	253
Assembly of God	61	56	37
Sunset Baptist	61	57	44
Mexican Baptist	52	54	60
Calvary Baptist	38	42	40
Totals	1375	1530	1419

It is often the case that a person who asks a question isn't seeking information. He's trying to start an argument.

The best way to keep good acts in memory is to refresh them with new.—Marcus Porcius Cato.

PACKS FOR "GET-AWAY"—Truman Pennell, 36-year-old insurance company president from Wichita Falls, packs his bag in a hotel at Little Rock, Arkansas, after a harrowing few hours. Pennell's plane crashed near here and he was taken into custody by officers who thought he was Frank Sprenz, one of the FBI's 10 most wanted. He later was released and left to join his family at Hot Springs, Arkansas. He escaped injury in the plane crash.

Jay Cunningham in German Play at Tech

Jay Cunningham, son of Mr. and Mrs. Louie Cunningham of Hamlin, who is a sophomore student at Texas Technological College at Lubbock, is a member of the cast of "Monsieur Herkules," one of several German language plays that will be presented by Tech students this (Thursday) evening in the Tech Union ballroom.

The play is part of a concoction called "Kirkus Liederkrantz," that includes puppet plays and singing of popular songs. Synopses of all the German plays will be given in English on the program.

As every thread of gold is valuable so is every moment of time.—John Mason.

Estimated Two Men From Jones County to Be in April Draft Call

An estimated two young men will be included in the April draft call from Jones County.

The state quota for Texas draft board in April calls for 310 men, Colonel Morris S. Schwartz, state selective service director, announced Tuesday.

The state's April call of 310 compares with a quota of 364 for March and 412 for February. The April call is the state's share of a national quota of 7,000 men, all for the Army.

Colonel Schwartz also announced that there would be no call for pre-induction physical and mental examinations in April.

The April quota will be filled with men who are at least 22 years old on April 1, 1959, with the exception of volunteers or delinquents, who may be younger.

The U. S. mint at Philadelphia has been in continuous operation since 1793.

Brussels sprouts sometimes grow to a height of four feet.

Feagan Says New Natural Gas Tax Would Hurt State

Proposals before the Legislature to put more taxes on natural gas will become an added burden to practically all Texas oil and gas producers who are already the state's No. 1 industrial taxpayers, E. C. Feagan, local oil information committee chairman for the Mid-Continent Oil and Gas Association said this week.

"One of these bills, a so-called tax on dedicated gas, is advocated as a tax that would only hit big gas pipeline companies, but actually it will fall on Texas producers," he said.

"Many people who are aware of the heavy taxes paid by the state's petroleum industry do not realize that gas producers and oil producers in most instances are the same taxpayers. Most gas is found in the search for oil, and even 30 per cent of all Texas gas comes out of the same wells as oil," Feagan said.

He pointed out that oil and gas producers' taxes in the last fiscal year totaled \$198,000,000 for the state government.

"Of this amount the producers paid \$42,000,000 on natural gas production under the present tax of seven per cent of the gross value. No other business in Texas pays such a high per cent of its gross income as does the producer when he sells his gas," he said.

"It would be unfair to increase it to 10 per cent as some are advocating today," the OIC leader said. "Producers are already paying 30 per cent of every state tax dollar collected and they account for two-thirds of all state tax money collected from business and property owners."

He said Texas producers are paying two-thirds of the state costs for various state welfare programs, including old age assistance. They pay 45 per cent of the state cost for public education—one of the largest items in the state budget.

Texans who have reached retirement age may save as much as \$240 in income taxes due to the community property law, advises Tax Man Sam in a release to The Herald.

In non-community property state, retirement checks belong either to the husband or the wife who earned it. However, in a community property state like Texas both the husband and the wife own the salary check. This may result in not only the husband receiving a \$240 deduction from his retirement income, but his wife, under certain circumstances, may also qualify for a \$240 tax deduction on her half of the retirement checks.

In some cases this means that a Texas couple will receive a \$480 retirement income tax benefit instead of the \$210 they would receive if they lived in Oklahoma or Arkansas. However, the community property laws can also work to completely eliminate the retirement income benefit for both husband and wife whereas they would be entitled to a \$240 tax deduction in other states. Check on this.

Texans of Retirement Age May Save on Income Tax Returns

Texans who have reached retirement age may save as much as \$240 in income taxes due to the community property law, advises Tax Man Sam in a release to The Herald.

In non-community property state, retirement checks belong either to the husband or the wife who earned it. However, in a community property state like Texas both the husband and the wife own the salary check. This may result in not only the husband receiving a \$240 deduction from his retirement income, but his wife, under certain circumstances, may also qualify for a \$240 tax deduction on her half of the retirement checks.

Freight Carloadings For Santa Fe Still Up

Freight carloadings for the Santa Fe Railway System for the week ending March 21, 1959, were 24,908 compared with 20,016 for the same week a year ago, reflecting a continuing gain. Cars received from connections totaled 12,380 compared with 10,189 for the same week a year ago.

Total cars moved were 37,288 compared with 30,205 for the same week a year ago. Santa Fe handled a total of 37,422 cars in the preceding week this year.

It Pays to Own a Dodge!

(It could save you hundreds of dollars!)

Okay, it's settled. You've thought about it and talked about it and now you've decided: A new car—and soon. Now for the jackpot question. Which '59 car will it be?

Unless you happen to be a Mr. Gotrocks, you'll probably think pretty carefully before you finally make the move. You'll do more shopping and compare more closely. And you'll ask yourself some basic questions. *How much will a new car cost me to buy? How much will it cost me to drive? What do I get for my money?*

There is no mystery about new car prices

Until this year, it was hard to compare different makes of cars to find which offered the most value for the money. It was like comparing apples and bananas. But not any more. Not since all new cars are required to carry price labels. Now, for the first time, you can compare various makes and models and see exactly what you're getting for your money. It's like exposing the hole cards in a game of stud poker. You know exactly where you stand.

Why should you buy a Dodge?

No one has to tell you that there are a number of cars on the market that sell for less than a Dodge. No cigar on that count. You know it and we know it. But there are things you get in a Dodge that you simply can't get in these other smaller cars. And this is important. Dodge gives you all of these things—the bigness and roominess, the comfort and ride, the luxury and prestige—for less than other cars in its field.

It's not just a few dollars less, either; in many cases it's literally *hundreds of dollars* less. Some Dodge models are even priced lower than the so-called "low-priced cars." (We'll be happy to show you the actual suggested retail prices.)

All cars cost money to run—but how much?

It would be nice if you just bought a new car and that was that. It didn't burn gas. Didn't use oil. Never needed service. But that's wishful thinking. Cars do use gas and oil. They do need service occasionally. But that doesn't mean that all cars cost the same to drive and maintain. Not by a jugful. There's a big difference.

Dodge is designed to run for less

Dodge has always had a reputation for economical operation. People who have owned them have found it costs less to run a Dodge, and that a Dodge needs service less often.

Take gasoline economy. The new Dodge 326 cu. in. Red Ram V-8 engine, because of its design and efficiency, will take you *miles farther* on a gallon of gas than any other V-8 in the Dodge field. You save money, every mile you drive.

But that's only part of the story. The way Dodge is engineered and built saves you money on such things as engine wear, brake relining, tune-ups, spark plug replacement. When you add them all up, they represent quite a saving. Another reason why it pays to own a Dodge.

What do you get for what you pay?

According to Manufacturer's Suggested Retail Prices, Dodge generally costs less, model for model, than other cars in its field. Fine and dandy. But while price is important, it isn't the only consideration. The real standard of value—whether you're buying a new car or a can of

beans—is what you get for what you pay. It's the "extras" you get at no extra cost that really determine which car is the best buy.

Dodge gives you more for less

Talk is cheap. Anyone can make claims. So let's be specific about the extras you get in Dodge at no extra cost. Torsion-Aire Ride—conceded the finest suspension in the industry—standard equipment on all Dodge models. Total-Contact Brakes, Safety-Rim Wheels, Electric Windshield Wipers, Independent Parking Brake—all standard on Dodge. Of course, you can also choose from such Dodge options as Push-Button Driving, Full-Time Power Steering and Swing-Out Swivel Seats.

There's a big difference in comfort, too

Goodness knows, we certainly don't want to knock competition. But we feel *obligated* to point out the comfort and convenience of the '59 Dodge. If you've tried getting into some of the other '59 cars you know just what we mean. To say it is difficult would honestly be an understatement. That's why we hope you'll come in and compare the difference in Dodge. How much easier it is to get in and out of a Dodge. How much more comfortable it is to sit in a Dodge. How much more room you have to stretch out. Really, it pays to own a Dodge.

It doesn't cost a penny to get the facts

We don't expect you to rush in and plunk down your money for a new Dodge just on the basis of what you've read. But if what you've read seems to make sense, we do hope you'll stop in to see, to drive and to price a Dodge. We think it's a waste of a buy, but then maybe we're prejudiced. Why not drop in and judge for yourself. We'll be more than happy to give you all the facts. No obligation, of course.
